

◀ André Mankel servira la CIA entre 1960 et 1964

Le Luxembourgeois de la CIA

Petite et grande histoire de l'espionnage (7)

Au plus chaud de la guerre froide, André Mankel est recruté par la CIA.

Il a été repéré par les Américains quelques années plus tôt, en 1954, lorsqu'avec ses deux comparses belges, il se fait pincer par la douane pour une obscure histoire de contrebande de nickel entre l'Est et l'Ouest.

Par la suite, Mankel signalera aux Américains un contrebandier français qui lui propose de participer à un réseau de trafic d'opium entre la Chine et les Etats-Unis. Une dénonciation qui permet à Mankel de servir de relais avec le bureau des narcotiques américain installé à Paris.

En 1958, la CIA envisage de recruter André Mankel comme «agent provocateur». Il est alors décrit comme un contrebandier émérite depuis le début des années 50. Il «a de nombreux contacts parmi les contrebandiers, la petite criminalité mais aussi auprès d'hommes d'affaires influents et légitimes», écrit l'agent américain qui dresse un premier portrait de Mankel. Il est décrit comme ayant une capacité de réflexion rapide et sachant rester calme et sûr de lui sous la pression. Un «candidat idéal» donc pour «tester les activités du KGB au Luxembourg».

André Mankel est né en 1917 à Luxembourg. Dans l'entre-deux-guerres, ses parents quittent le Grand-Duché pour Paris où le jeune André passe son bac. Il s'inscrit ensuite à l'université, en droit. Arrive la Seconde Guerre mondiale et André tente de rejoindre l'Angleterre, sans succès. Il passe ainsi un temps dans le port de Collioure à la frontière franco-espagnole où il charge et décharge les bateaux. Il rejoint ensuite sa famille installée à Châteaubriant

près de Nantes. Il s'engage dans la Résistance, d'abord dans le réseau de renseignement «Cahors-Asturies». Puis, avec son petit frère, il entre au maquis Sud-Loire. Tous deux sont désignés pour assurer la jonction avec les troupes américaines en vue d'organiser la Libération de Nantes. En août 1944, après le débarquement, les Mankel sont accrochés par la Wehrmacht. Dans leur fuite à vélo, le cadet est blessé, arrêté, exécuté.

Pendant la guerre, André perd également son père, Gaston, qui sert d'interprète aux nazis. Lequel en profite pour transmettre des informations à la Résistance. Lorsque les Allemands découvrent le pot aux roses, il est emprisonné. Une mauvaise infection à la tête lui vaudra d'être libéré mais l'emportera deux jours après sa sortie.

Voyage au Congo

Après la guerre, André décide de rentrer au Luxembourg avec sa promise, une Française rencontrée en Bretagne, celle qui sera son épouse et lui donnera trois enfants. Ils s'installent d'abord à Redange dans la maison familiale avant de déménager dans la capitale. C'est aussi là que commence la double vie d'André, un homme discret, taiseux.

Il est donc recruté par la CIA à la fin des années 50. Sa première mission d'envergure se jouera au Congo. L'indépendance vient d'y être déclarée – en juin 1960 –, le Katanga et le Sud-Kasaï ont fait sécession dans la foulée. Mais surtout, Patrice Lumumba, le Premier ministre congolais (jusqu'en septembre 1960), a fait appel à l'Union soviétique.

La CIA demande alors à André Mankel, son nom de code est désormais QJWIN, de renouveler son passeport, de se faire vacciner et d'acheter des habits pour un voyage en Afrique. Rendez-vous est pris à l'hôtel Carlton de Francfort pour un briefing. Un certain

monsieur Black ira à sa rencontre et lui demandera s'il est le commerçant du Luxembourg. Il devra répondre: «Oui je suis le représentant de l'Arbed». Au cours de cet entretien, début novembre 1960, monsieur Black, en réalité l'agent de la CIA Oliver Altman, ne lui donne pas le but exact de sa mission, mais l'informe qu'elle comprend «une grande part de risque personnel». La CIA lui raconte qu'il y a des activités pro-soviétiques au sein de la communauté corse du Congo. Il devra «identifier, évaluer et recommander des personnes fiables et vives d'esprit que nous pourrions utiliser. Nous avons pensé qu'il serait mieux de taire nos exigences réelles et spécifiques en attendant la décision finale d'utiliser Mankel».

Le Luxembourgeois, lui, accepte d'aller à Léopoldville (aujourd'hui Kinshasa). Mi-novembre, il prend le vol Paris-Brazzaville et rejoint Léopoldville en bateau. Officiellement, il se rend au Congo pour vendre des distributeurs automatiques de boissons.

Du Congo, deux anecdotes sont rapportées. Mankel tombe d'abord sur un autre «missionnaire de la CIA», nom de code WIROGUE. Ce dernier lui propose 300 dollars mensuels pour participer à un réseau d'intelligence et devenir membre d'une «équipe d'exécution». Mankel refuse. WIROGUE lui dira même qu'il travaille pour les services américains. Ce qui est d'ailleurs véridique. Dans un rapport, les responsables de la CIA s'inquiètent du comportement «en roue libre» de WIROGUE, incapable de tenir sa langue

et de gérer ses finances.

Second fait marquant: Mankel tente de recruter le major Djurovic, un pilote de l'armée yougoslave qui effectue des vols internes pour l'Onu. Il propose notamment au

Yougoslave de rapatrier des diamants lors de son prochain retour en Europe. Mankel quitte finalement le Congo à la mi-décembre. Le chef de la division responsable de QJWIN écrit qu'il a été envoyé au Congo pour une «raison opérationnelle extrêmement sensible qui a été remplie».

Cellule d'assassins

La mission de Mankel s'inscrit sans aucun doute dans le plan de la CIA pour assassiner Lumumba. Lequel sera effectivement tué en janvier 1961 mais, apparemment, pas par les américains. Selon un rapport, l'agent QJWIN avait été recruté pour «une utilisation spéciale au Congo (l'assassinat de Patrice Lumumba) qui devait être menée par Justin O'Donnell». Ce dernier «a inspecté la scène [et] décidé qu'il ne voulait pas participer à la tentative d'assassinat». C'est lui qui, le 21 décembre, autorise le retour de QJWIN au Luxembourg.

Trois jours après l'assassinat de Lumumba, Kennedy prend ses fonctions de 35^e président des Etats-Unis. Son administration exhorte Richard Bissel, directeur adjoint de la CIA, à créer ce qui sera baptisé la «Executive action capability», une cellule dédiée aux assassinats. Le projet est baptisé ZRRIFLE. Les projets d'assassinat de Fidel Castro entrent dans ce schéma. En haut lieu à la CIA, on autorise, dans ce cadre, l'utilisation de QJWIN. Finalement il ne sera jamais contacté, il existait simple-

ment un feu vert pour faire appel à ses services. Lesquels sont-ils?

André Mankel n'est pas celui qui est prévu pour porter le coup fatal. S'il est qualifié de «principal agent», son utilisation est logistique. La mission, dont peu connaissent l'objectif réel, nécessite bien une équipe qui arrive en amont et repart en aval, après avoir fait le ménage. Elle reconnaît les lieux, loue les planques, prévoit des itinéraires, achète du matériel, recrute des agents. C'est sans doute comme ça qu'il faut appréhender le rôle de Mankel. Lequel se confirme dans sa mission suivante. Dès janvier 1961, alors qu'il revient à peine du Congo, on le charge de recruter, à Milan, des gens «libres d'agir» mais qui ne doivent appartenir à aucune «organisation». Ils doivent parler l'italien et avoir accès à un passeport italien. Mankel doit trouver trois ou quatre candidats mais ne pas pousser les investigations trop loin afin de ne pas griller sa couverture. Dans son rapport à la CIA, Mankel écrit au sujet de sa seule recrue: «Je lui ai dit qu'il travaillerait pour le compte d'une importante société commerciale, désireuse de s'approprier certains documents commerciaux». L'homme, un certain Barletta, est représentant pour une maison spécialisée en céramique et fers forgés. Il excelle surtout dans l'effraction de coffres-forts.

La CIA est un peu déçue du voyage de Mankel. L'agence lui spécifie que son installation à long terme au Congo, pourtant promise, est reportée. On lui demande plutôt, sous une nouvelle couverture, de s'installer à Baden-Baden. Il devient ainsi marchand d'art et tentera aussi d'ouvrir un magasin à Cologne en 1964. L'année même où la CIA met fin au contrat de Mankel. Lequel continuera de vivre à Luxembourg et de travailler comme indépendant jusqu'à sa mort en 1993.

1 Mr. Madigan. Have you ever heard the term Executive

3 Mr. Maheu. I don't recall that I ever have.

4 Mr. Madigan. Do you know what Executive Action means?

5 Mr. Maheu. No.

6 Mr. Madigan. Have you ever heard of the term QJWIN?

7 Mr. Maheu. Not that I recall.

8 Mr. Madigan. How about AMLASH?

9 Mr. Maheu. Not that I recall.

10 Mr. Madigan. How about a Mr. Cubela?

11 Mr. Maheu. Not that I recall.

12 Mr. Madigan. Please explain to the committee how your
13 involvement in this project was terminated. How did it
14 come about that you stopped doing what you were doing?

15 Mr. Maheu. Well, I was not very happy about the project
16 in the first place. I felt that I was building up my busi-
17 ness, I had a good business going, the demands on behalf of
18 the Hughes interests were increasing progressively. On the
19 other hand, I felt that I had an obligation to my country, and
20 I recognized the fact that the Agency had been good to me in
21 the early stages of my business, with the financial assistance
22 that they had given me. I did not want any money for the pro-
23 ject itself. I was reimbursed to a minor degree for expenses,
24 which in fact were incurred. And I was anxious to get back
25 to my work. My recollection is that I phased out of the pro-

3 Mr. Halley. Let me go back. You asked me about ZRRIFLE.
4 This is one of a thousand or hundreds of cryptonyms. Every day
5 I read, you know, hundreds of pages of traffic, so when you ask
6 me do I know what ZRRIFLE is, I must answer you off the top of
7 my head no. I have tried to be helpful. I have asked you
8 several times if you could give me a steering tip or show me
9 what direction you are going, I might be able to try to comment
10 on it, but ZRRIFLE as such means nothing to me. You really
11 could not expect that it would, given the thousands of these
12 things that come across my desk.

13 Mr. Baron. That is absolutely understandable. I want to
14 try to see what happens in the way of getting an unrefreshed
15 recollection from you, then I will go back over these two,
16 especially the next one, QJWIN. Do you recall a CIA asset who
17 went by the cryptonym QJWIN?

18 Mr. Halley. No, I do not. Knowing the system, and so
19 forth, normally it would have something to do with Spain. It
20 does not ring any bells with me. That is all I can give you,
21 a sort of Pavlovian response. You flash QJWIN on the screen,
22 I am telling you now I do not know, but it probably has
23 something to do with Spain.

24 Mr. Baron. Were you aware that a project involving the

1 Mr. Baron. Was the CIA connected in any way to the
2 events that immediately led to Lumumba's death?

3 Mr. Tweedy. None whatsoever.

4 Mr. Baron. CIA was not involved in a plot to fly
5 Lumumba from his previous place of imprisonment in Tysville
6 out to Kutanga where the authorities were known to be so
7 hostile to him that he would probably meet his death there?

8 Mr. Tweedy. The fate of Lumumba in the end was purely
9 an African event.

10 Mr. Baron. At what point did you learn of Lumumba's
11 death?

12 Mr. Tweedy. I suspect probably about the time that the
13 world did. No one had a beat on this.

14 Mr. Baron. You had no advanced warning that Mobutu in-
15 tended to fly Lumumba to Katanga?

16 Mr. Tweedy. Not that I recall, and I am sure the cable
17 traffic would reflect it if I had.

18 Mr. Baron. Mr. Tweedy, do you recall an asset who was
19 sent from Europe, where he had been recruited by [REDACTED]
20 [REDACTED] to the Congo in the fall of 1960?

21 Mr. Tweedy. I think I was reminded of this when I talked
22 to you and Mr. Wides a couple or so months ago.

23 Mr. Baron. This would be an asset who went by the
24 cryptonym of QJWIN.

25 Mr. Tweedy. So I was reminded then, which was a cryptonym

1 I didn't remember at all, whereas I do remember quite a number
2 of cryptonyms when reminded of them.

3 Mr. Baron. Aside from the cryptonym, do you recall
4 there was an asset who had been recruited by [REDACTED] in
5 Europe and who was sent to the Congo to perform some mission
6 in November and December of 1960?

7 Mr. Tweedy. I was generally reminded of it by that
8 conversation with you and Mr. Wides but I will confess that
9 my recollection doesn't go any further than that.

10 But unlike some of the things I have been reminded
11 of, I think recalled that asset of [REDACTED] had been
12 involved. That is just as about as deep as my recollection
13 goes.

14 Mr. Baron. Let me see if I can refresh your recollection,
15 first, by relating to you the testimony of JUSTIN O'Donnell
16 who said that he did make use of QJWIN in the Congo as
17 a kind of "alter ego" of his, a general operative of his.

18 Does that remind you at all of the nature of the
19 mission that QJWIN had in the Congo?

20 Mr. Tweedy. No, it doesn't.

21 Mr. Baron. Have you heard the phrase executive ac-
22 tion?

23 Mr. Tweedy. In the newspapers.

24 Mr. Baron. During your tenure as a CIA official you
25 never heard the phrase executive action discussed as part of

2 Mr. Baron. Would it be surprising to you that QJWIN might
3 have been used in some manner in connection with an assassina-
4 tion plot against Lumumba and have been directed or supervised
5 by William Harvey without your knowledge?

6 Mr. Tweedy. It would have surprised me exceedingly and
7 would today. To put it differently, I am sure it didn't occur.

8 Mr. Baron. After reading this memo, you told me a
9 moment ago that you thought this might indicate that QJWIN
10 was being recruited for ZRRIFLE activities.

11 Mr. Tweedy. Well, you mentioned ZRRIFLE, which frankly
12 I hadn't heard before. This sounds as if he was going to
13 have some kind of generic assignment. I merely put those
14 two together but I know nothing about it at all.

15 Mr. Baron. The dispatch says, "In view of the extreme
16 sensitivity of the objective for which we want him to perform
17 his task, he was not told precisely what we want him to do."

18 Do you have any knowledge of what it was precisely that
19 QJWIN was asked to do?

20 Mr. Tweedy. I do not.

21 Mr. Baron. Then, on page 3 of the dispatch it says:

22 "The operation we have in mind is too sensitive
23 to risk blowing it in this phase and the search for assets
24 must be conducted with truly" -- which is underscored --
25 "minimum risk".

10 Mr. Baron. O'Donnell's account that he was asked by

14 Mr. Baron. The third country national referred to in this

4 begins on the first page where it says: "QJWIN, who resides

7 QJWIN said WIROGUE smelled as though he in INTEL business.

4 Mr. Hedgman. It tingles a slight bell somewhere in the
5 back of my mind. It was just one of the many problems I had
6 But certainly I would like to stress that I don't know what
7 WIROGUE was talking about as a 'execution squad,' and I am sure
8 he was never tasked to go out and execute anyone.

9 I remembered he came, and his idea of what an intelligence
10 operative should do, I think, had been gathered by reading a
11 few novels or something of the sort. He didn't strike me,

18 Mr. Baron. So far as you know, knew, no one in the

22 he calls it, 'execution squads,' in the Station and so on.

21 Mr. Baron. Do you recall anything about the formation

Accounting for the expenses of QJWIN and other agents involved in this activity will be in the form of receipts for funds received by them, and these receipts will be retained in the ZRRIFLE covert operational file. Because of the sensitive nature of this activity, accounting for funds will be by general category and by certification. In addition to the salary established for QJWIN, you are authorized the expenditure of \$13,800 through 31 December 1963. If further funds are necessary, they will be provided.

3. This memorandum approves an amendment of reference memorandum increasing funds authorized for the previous period from \$14,700 to \$16,200.

4. This memorandum is to be considered in lieu of project and constitutes authorization for all travel, per diem, operational, and other expenses.

5. It is requested that this activity be handled strictly on an EYES ONLY basis.

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

2. As established by contract with him, QJWIN's salary will be \$7,200 per annum. Accounting for the expenses of QJWIN and other agents involved in this activity will be in the form of receipts for funds received by them, and these receipts will be retained in the ZRRIFLE covert operational file. Because of the sensitive nature of this activity, accounting for funds will be by general category and by certification. In addition to the salary established for QJWIN, you are authorized the expenditure of \$13,800 through 31 December 1963. If further funds are necessary, they will be provided.

3. This memorandum approves an amendment of reference memorandum increasing funds authorized for the previous period from \$14,700 to \$16,200.

4. This memorandum is to be considered in lieu of project and constitutes authorization for all travel, per diem, operational, and other expenses.

5. It is requested that this activity be handled strictly on an EYES ONLY basis

MEMORANDUM FOR: THE RECORD

SUBJECT : Accountings for Advance - QJWIN

During the period September or October 1960, an advance of \$1,600.00 in Belgium Congo Francs was passed to QJWIN in Leopoldville. This advance was given for purposes in line with the operational direction given the agent. At a later date an accounting for \$1,240.00 was turned-in by this agent, which left an outstanding balance of \$360.00 due. ~~Since that time I have tried on many occasions and in every way to obtain an accounting for the amount, and have been quite unsuccessful in my attempts. Therefore, since I believe there are no further avenues open for obtaining the desired accounting, I request this amount be written-off to expense on the basis of the following certification:~~

I certify that to the best of my knowledge and belief and based on operational reports these funds were used by the agent for the operational purposes for which the advance was given.

WIROGUE/1 was being prepared for deep cover assignment to arrive Leopoldville late November. Headquarters noted ~~that~~ intent to use him as utility agent in order to "(a) organize and conduct a surveillance team; (b) intercept packages; (c) blow up bridges; and (d) execute other assignments requiring positive action. His utilization is not to be restricted to Leopoldville. [Indeed, he may be subject to call by other African stations although it is expected for him to be resident in Leopoldville." In this cable WIROGUE/1 was described correctly as an inventor, photographer, architect, forger and former bank robber. He was judged to be ingenuous, observant, shrewd, glib and one who relished intrigue and daring. He was assessed as able to "learn quickly and carry out any assignment without regard to danger." As he was in the United States black, the plan was for him to depart black, documented as an Austrian, to surface in West Germany and from there to proceed on his own to Leopoldville. In November 1960 "to prevent his identification with the U.S. Government or BKHERALD and to preclude any unexpected recovery of his past which would associate him with his pre-BKHERALD life", WIROGUE/1 underwent plastic surgery to change the shape of his nose. He was provided a toupee for constant wear and documented as an Austrian who had never been to the United States. Cover for his presence in Leopoldville was to be as shopkeeper, possibly that of a photographer. A rather lengthy assessment of his character can be summed up by saying he was able to rationalize any action if he had strong case officer direction. Training records for WIROGUE/1, subsequent to his engagement by the Africa Division, indicate training only in SW.

WIROGUE/1 arrived in Leopoldville on 2 December 1960. His case officer gave him the following instructions: (a) to build cover possibly by opening a photographic shop; and (b) to try to spot persons for a surveillance team, intel assets, particularly in Oriental province, and para-military assets. Almost immediately upon arrival he ran into QJWIN who told the station that WIROGUE/1 looked like an intelligence agent. In attempting to recruit QJWIN for his "execution squad", WIROGUE/1 exceeded his instructions to avoid making approaches without checking with Leopoldville station.

accountings for travel and operational funds, we do not wish to hold him to a rigid accounting for every cent (for one reason, this would entail his making detailed financial notes as he moves about, in itself a potential breach of security). It will suffice if he provides you with whatever supporting documents are normally available to him (such as hotel bills), if he gives you a general accounting for the use of funds, and if you are satisfied that the funds were used properly. Our experiences with him so far have provided no indications of misuse of funds.

4. During the discussion with QJWIN on 2 May, he raised two problems in the event of postponement of his move to Leopoldville:

a. When it is decided to move him, he would appreciate our timing the move, if possible, to enable his children to complete their then current school term in Luxembourg and to register for the next following term in Leopoldville. Please inform him that this desire will be given the fullest possible consideration.

b. If he is to remain in Europe for any length of time at our behest, as he now will per reference, he should move out of Luxembourg with his family. As he correctly pointed out, he has no cover job, now has a good salary, is known to the Gendarmerie in Luxembourg, and he foresees difficulty in explaining his work, source of income, declaration of income tax, etc. We agree with his viewpoint, and this problem is under active consideration. He cannot, of course, move to Belgium with a sentence hanging over his head there. We are reluctant to move him to France since he was once convicted there, and application for a residence permit would result in a police files check with possible resultant and undesirable police attention to him. Furthermore, since a good deal of his search activity has taken place and will take place in France, we far prefer to have him reside elsewhere. Switzerland might be a possibility (except for tight police controls), but Germany appears to be a better possibility. If QJWIN does move to Leopoldville at the end of this year, he can probably survive the period in Luxembourg. If the move is to be postponed beyond the end of this year - and we shall let you know as soon as this is decided - he should be relocated. In the meantime, please discuss the above possibilities with him and let us know his ideas on residence other than Luxembourg and on possible cover for his residence elsewhere.

5. During April 1961, QJWIN spotted some candidates in France. Two or three of these will have to be revisited by him for a second look at them, and to obtain data which he was not able to obtain during the first contact without arousing suspicion on their part. We shall inform you and send pertinent details (by dispatch if time permits) when we desire that this be done. In the meantime, please inform QJWIN that the need for his recontacting these people without undue delay is recognized and is on the front burner.

6. With regard to funding QJWIN, it is requested that he be given his pay, travel money, operational money, and any other necessary funds in cash during personal contacts only. (We were disturbed to note in the report of his LCFLUTTER examination his statement that money was deposited to the Banque Internationale for him by the American Embassy. The deposit was pursuant to a request from Leopoldville, but the method of deposit was counter to the maximum security we are trying to apply to our use of QJWIN.).

7. It is essential that from now on all traffic be handled as follows:

a. Cables to be slugged RYBAT ZRRIFLE only. (QJWIN is still the cryptonym for the person and should be used in referring to him, but the slugging must be as stated above to insure maximum security.).

b. Dispatches to Headquarters are to be sent to KUTUBE/D only, in the original and one copy only, stamped TOP SECRET LAURICLE. The dispatches are to be sent in sealed envelopes marked TOP SECRET, LAURICLE, ZRRIFLE and further marked as follows:

Attention: Chief, KUTUBE/D
To be opened by Daniel M. PRESLAND only.

One copy of each Station dispatch or cable may be retained by COS, but it is requested that the file be EYES ONLY for COS and that all copies of all previous traffic, notes, etc., on QJWIN be included in this one file.

c. Dispatches from Headquarters will be sent in the original only in a sealed envelope marked "To be opened by Chief of Station only." Every attempt will be made to communicate by dispatch rather than cable, although some cable traffic will be unavoidable.

d. Necessary Headquarters coordination on the traffic will be undertaken by Chief, KUTUBE/D with Chief, WE.

8. It is extremely important that the accuracy and completeness of the reporting on QJWIN's efforts be double-checked. We note, for example, that in OLLA-1232 the name of BASSI's firm (INTERGLOBO) was not included and that the address of the woman mentioned in paragraph 3 is via Taiani, not via Taimi.

9. In summary, specific actions required by this dispatch are:

- a. Monthly salary to QJWIN (paragraph 2)
- b. Informing him re paragraph 4, sub-paragraph a.
- c. Obtaining his ideas on a possible relocation per paragraph 4, sub-paragraph b.
- d. Informing him per the last sentence of paragraph 5.
- e. Handling of past and future traffic per paragraph 7.

10. Please send a dispatch to KUTUBE/D with a report of each contact with QJWIN. We shall try not to burden you with too many contacts. After the contact for the purposes of a. thru d. in paragraph 9 above, the next one will probably be to brief him for a trip to France. During the contact for the purposes of paragraph 9, please ask him for any receipts, hotel bills, etc., for the travel and operational money given to him during his April travels in France and forward these to KUTUBE/D.

CIA HISTORICAL REVIEW PROGRAM
RELEASE AS SANITIZED

1998

3 July 1962

TO: WKH
FM: AMS
RE: ZRRIFLE

*Sketch
P.L. field
with*

1. Per our discussion of 2 July 1962, I expect that we shall proceed to transfer QJWIN to Baden-Baden per the proposal in OLIA-1463 dated 2 February 1962. LUXE/0489 dated 19 June 1962 stated that COS would have the full details of the capital outlay required by 23 June; however, the information has not been received as of 3 July. The last cable to the Station, DIR 18391 told COS to contact you directly on his arrival on 16 July.

2. With regard to candidates spotted by QJWIN, the two whom he spotted in Italy a year and a quarter ago can probably be used if needed, if we can accept the assessments of them by the Trieste Base contract agent, Magonetti. Magonetti's assessment is contained in OIRA 27542 dated 10 May 1961. The names of the two French candidates are contained in OLIA 1426 dated 15 December 1961. No action has been taken on these names regarding tracing or anything else. My handwritten notes attached to that dispatch contain fuller descriptions of the two people than appear in the dispatch.

3. The other spotting effort that can be made is through [04] (TN) in Rome. [04] was well briefed on the qualifications desired and the security precautions to be observed in the spotting activity. COS Rome has a copy of the qualifications and restrictions in his safe; however, if [04] is told to proceed with his contact in Florence, I suggest that he be re-briefed in detail.

4. Frankly, all the rest of the paper in the file is crud except for the pay receipts, which are assembled in one envelope. I have already given the ZRRIFLE authorization paper signed by Helms and Skip has been given the QJWIN contract, including the extension to 1 March 1963.

5. The details which have yet to be worked out are

- a. The precise method of contact with QJWIN
- b. The system of drawing funds for payments to him
- c. An emergency contact for him (this should probably be COS LUXE).

RE: ZRRIFLE

P.L. [unclear]
[unclear]*

1. Per our discussion of 2 July 1962, I expect that we shall proceed to transfer QJWIN to Baden-Baden per the proposal in OLLA-1463 dated 2 February 1962. LUXE-0489 dated 19 June 1962 stated that COS would have the full details of the capital outlay required by 23 June; however, the information has not been received as of 3 July. The last cable to the Station, DIR-18391 told COS to contact you directly on his arrival on 16 July.

2. With regard to candidates spotted by QJWIN, the two whom he spotted in Italy a year and a quarter ago can probably be used if needed, if we can accept the assessments of them by the Trieste Base contract agent, Wagonetti. Wagonetti's assessment is contained in OIRA-27542 dated 10 May 1961. The names of the two French candidates are contained in OLLA-1426 dated 15 December 1961. No action has been taken on these names regarding tracing or anything else. My handwritten notes attached to that dispatch contain fuller descriptions of the two people than appear in the dispatch.

3. The other spotting effort that can be made is through [03] (TN) in Rome. Hank was well briefed on the qualifications desired and the security precautions to be observed in the spotting activity. COS Rome has a copy of the qualifications and restrictions in his safe; however, if [03] is told to proceed with his contact in Florence, I suggest that he be re-briefed in detail.

4. Frankly, all the rest of the paper in the file is crud except for the pay receipts, which are assembled in one envelope. I have already given the ZRRIFLE authorization paper signed by Helms and Skip has been given the QJWIN contract, including the extension to 1 March 1963.

5. The details which have yet to be worked out are

- a. The precise method of contact with QJWIN
- b. The system of drawing funds for payments to him
- c. An emergency contact for him (this should probably be COS LUXE).

1998

11 January 1961

MEMORANDUM FOR: Finance Division

REFERENCE: T/A 1-284 and T/A 1-285 dated 21 December 1960

1. The amounts specified in referenced T/A's were given to QWIN by COS, Luxembourg on authorization from Headquarters per DIA 09957 (UTL 00946). In that cable, COS Luxembourg was told to T/A all QWIN expenses to Headquarters since QWIN was being used for FI/D purposes. Subsequently, COS, Luxembourg forwarded to Headquarters in OLLA 1113, dated 17 November 1960, a breakdown of funds given to QWIN. This dispatch, which is Top Secret, also forwarded QWIN's receipts for the money given to him by COS, Luxembourg. The dispatch shows that 7,600 Belgian francs were given to QWIN for travel in Europe; 10,000 Belgian francs for per diem in Europe; 6,500 Belgian francs for purchase of clothing; 15,000 Belgian francs for pay; 15,400 Belgian francs for airplane ticket to Africa and return; 30,000 Belgian francs for expenses in Africa, making a total of 84,500 Belgian francs. The dispatch and the receipts forwarded with it are being retained in the QWIN file in FI/D/ops and will be shown to either the certifying officer or the auditor on request, as will other pertinent documents in the file.

2. In order to avoid any misunderstanding, it should be noted that QWIN was sent on this trip for a specific, highly sensitive operational purpose which has been completed. Although future use of QWIN is not precluded, it was not deemed fitting during this one use of him to enter into a continuing contractual relationship or to have him sign any memorandum of understanding.

3. The amounts in the referenced T/A's should not be applied against the advance account of COS, Luxembourg. The funds were given to QWIN who signed receipts for them, and the COS, Luxembourg was involved in no other capacity than that of a cut-out to give QWIN the funds.

Job # 69-S-551

File No. None

1. Folder entitled personality sketches:

Tab M - Harold MELTZER

Harold MELTZER with aliases was involved in the rackets with upper echelon "hoodlums" throughout the U.S. (Pg. 1 Encl. 3 dated 19 Dec 1960.) "In 1959 he furnished information to our QJWIN California office but has not since cooperated with us. N.B. he has the background and talent for the matter we discussed but it is not known whether he would be receptive."

Tab Y - Hanna YAZBECK

YAZBECK lived in Beirut and worked for QJWIN's office intermittently during the past 10 years (dates not given - possibly 51-61.) YAZBECK's chief bodyguard from 50-58 (not named) was a convicted murderer. The bodyguard was murdered. States that YAZBECK has an available pool of assassins.

2. ZRRIFLE/Administrative Financial Folder

[01] [C 08] as source and spotter for Corsicans. Altman to pick his brain and pinpoint his ability to do this job for us, but once selection made, [01] to be eliminated.

b. Memorandum dated 31 January 1961

QJWIN recruited Frankfurt 1 November 1960 to undertake one-shot mission to Belgian Congo. Mission potentially involved great personal risk.

c. Memorandum dated 25 October 1961

QJWIN salary payment. States QJWIN not U.S. citizen.

d. Memorandum to W.K. Harvey dated 3 July 1962

Page 2. "Despite COS Luxe's viewpoint, I happen to know that QJWIN can do more spotting in Corsican circles whenever we want him to."

e. LUXE 0573 (IN 77918) dated 2 March 1963

Para. 2. Contact with QJWIN put off until 8 March. Headquarters reminded that despite repeated request, no correspondence received re this "operation" in past 8 months.

f. Memorandum to C/FI from William Harvey dated 27 June 1963

"As far as ZRRIFLE aspects this op, which have been covered under the QJWIN authorization for security reasons and with which Fletcher Knight is fully familiar, except for one precautionary 'life line', aspects of this case have been terminated and need no longer be considered part of this project."

g. OLLA 1974 dated 24 April 1964

QJWIN has been terminated amicably. Para 2 - "QJWIN's personal history reflects major instability and the habit of hedging his bets is undoubtedly part of his character. This does not imply a security breach. There is nothing to indicate that he has discussed his CIA relationship with anyone except, perhaps his wife."

CIA HISTORICAL REVIEW PROGRAM

RELEASE IN FULL 1998

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

MEMORANDUM FOR: Mr. William K. Harvey

SUBJECT: Extension of Authorization of ZRRIFLE
Agent Activities

REFERENCE: Memorandum dated 19 February 1962,
same subject

1. For the purpose of ZRRIFLE activities, you are hereby authorized to retain the services of principal agent QJWIN and such other principal agents and sub-agents as may be required. This authorization will continue to be in force through 31 December 1963 subject to renewal at that time.

2. As established by contract with him, QJWIN's salary will be \$7,200 per annum. Accounting for the expenses of QJWIN and other agents involved in this activity will be in the form of receipts for funds received by them, and these receipts will be retained in the ZRRIFLE covert operational file. Because of the sensitive nature of this activity, accounting for funds will be by general category and by certification. In addition to the salary established for QJWIN, you are authorized the expenditure of \$13,800 through 31 December 1963. If further funds are necessary, they will be provided.

3. This memorandum approves an amendment of reference memorandum increasing funds authorized for the previous period from \$14,700 to \$16,200.

4. This memorandum is to be considered in lieu of project and constitutes authorization for all travel, per diem, operational, and other expenses.

5. It is requested that this activity be handled strictly on an EYES ONLY basis.

Mr. Jose Marie Andre Mankel

Dear Mr. Mankel:

Effective 28 February 1961, all contracts, oral or written, by and between you and the United States Government, as represented by the undersigned Contracting Officer are hereby terminated by mutual consent of the parties thereto, and in lieu thereof the following agreement is substituted:

The United States Government, as represented by the Contracting Officer, hereby contracts with you as an independent contractor for the submission of certain information and related services of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the submission of such information and services, you will be compensated in an amount calculated at the rate of \$7200 per annum. Payments will be made as requested by you in writing in a manner acceptable to the Government.

2. Travel. You will be advanced or reimbursed funds for travel and transportation expenses for you, your dependents, your household effects and your personal automobile to and from your permanent post of assignment, and for you alone for authorized operational travel. You will be entitled to per diem in lieu of subsistence in the course of all travel performed hereunder and, when authorized, for you alone while on temporary duty away from your permanent post of assignment. All travel, transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in substantial compliance with applicable Government regulations, or according to the established policies of your cover facility, whichever is directed by the Government.

3. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses including, but not limited to, entertainment and the purchase of information, as specifically approved by the Government. Such funds will be subject to payment and accounting in substantial compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

4. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

5. Funding. If necessary to protect the security of this arrangement, monies due you hereunder may be funded in other than a direct manner. It is understood and agreed that any monies so funded constitute payment by the Government in satisfaction of its obligations under this agreement.

6. Execution of Documents. If, during your utilization hereunder, you assume the custody of Government funds, you will be required to execute and submit to the Government a statement of the funds received and expended.

constructive, and you agree to execute documents may be required by the Government to evidence this relationship.

7. Status. You are not an employee of the United States Government under this agreement and are not entitled to any benefits normally incident to an employee status.

8. Secrecy. All information related to this agreement conveyed through instructions, this instrument, or otherwise, is secret and shall not be divulged to any person, organization or Government in any form or manner, except as authorized by the representative of the Government executing this agreement. It is agreed that any revelation whatsoever of the above information will constitute and be an immediate and final breach of this agreement and will result in forfeiture by you of any and all benefits which may then have accrued to you by reason of this agreement.

9. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

10. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

11. Term. This contract is effective as of 1 March 1961, and shall continue thereafter for a period of one (1) year unless sooner terminated by the Government either:

- (a) By sixty (60) days' actual notice to you from the Government, or

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. Termination of this agreement will not release you from the obligation of any security oath you may be required to take.

CIA HISTORICAL REVIEW PROGRAM
RELEASE IN FULL 1998

26 June 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: Accountings for Advance - QJWIN

During September and October, 1960, QJWIN was temporarily in Leopoldville on an operational assignment ordered and approved by KUBARK Headquarters. During that time a Leopoldville station advanced to him \$1600 in Belgian Congo francs. Subsequently, QJWIN accounted for \$1240, leaving an outstanding balance of \$360. All reasonable efforts have been made to explain this discrepancy without success. I do not believe it is practical at this point to attempt to investigate further to determine the reason why QJWIN accounting does not match the advance given him. All of our experience with QJWIN leads to the considered belief that the funds given him were meticulously expended for the operational purpose utilized. However, in view of the lapse of time it is hardly reasonable to expect him to reconstruct these transactions in detail at this point. In view of this, I recommend that this amount of \$360 be written off on the basis of the following certification:

I hereby certify that to the best of my knowledge and belief based on operational reports and knowledge of QJWIN that the \$360 in question was used by this agent officially for the operational purposes for which the advance was given.

MEMORANDUM FOR: THE RECORD

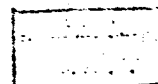

SUBJECT : Accountings for Advance - QJAIN

During the period September or October 1960, an advance of \$1,600.00 in Belgium Congo Francs was passed to QJAIN in Leopoldville. This advance was given for purposes in line with the operational direction given the agent. At a later date an accounting for \$1,250.00 was turned-in by this agent, which left an outstanding balance of \$350.00 due. Since that time I have tried on many occasions and in every way to obtain an accounting for the amount, and have been quite unsuccessful in my attempts. Therefore, since I believe there are no further avenues open for obtaining the desired accounting, I request this amount be written-off to expense on the basis of the following certification:

I certify that to the best of my knowledge and belief and based on operational reports these funds were used by the agent for the operational purposes for which the advance was given.

DISPATCH		CLASSIFICATION SECRET R-X-B-T	PROCESSING ACTION

INFO	CHIEF, WE - ATTN: JACK T. TAGG		NO INDEXING REQUIRED
FROM	CHIEF OF STATION, LUXEMBOURG		ONLY QUALIFIED DESK CAN JUDGE INDEXING
SUBJECT	QJWIN TERMINATION		
ACTION REQUIRED - REFERENCES OLLA-125, 14 FEBRUARY 1964			
<p>1. QJWIN HAS BEEN TERMINATED. ROZENY TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 20 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS GROUNDWORK THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, ROZENY SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLCOCK. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.</p> <p>2. SINCE JANUARY 1962 (SEE PARAGRAPH 1, OLLA-1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-1041 OF 20 MAY 1962 AND DURING ROZENY'S DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME 10,000 DOLLARS LATER, HE IS STILL NOT IN PLACE, ALTHOUGH ROZENY MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. ROZENY HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUTUBE RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.</p> <p>3. ROZENY IS KNOWN TO QJWIN BY TRUE NAME. ROZENY USED THE NAME "PIERRE" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED ROZENY'S TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE, BUT THIS PHONE IS BEING DISMANTLED IN OCTOBER OF THIS YEAR. QJWIN'S ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.</p>

REFERENCE(S):

1. Attached are receipts for payment made to QJWIN per LAUR-0544, 4 Dec 62.

2. With the absence of any communication to the contrary, I am basing direction of QJWIN on the plan which Presland suggested in July. QJWIN has been told to limit his activity to settling firmly into the area and to building his cover. QJWIN will return to Luxembourg every two weeks and contact me by phone. The next contact is 15 December.

3. It is requested that Presland or Fagg confirm that the July decision for this operation still stands and furnish an estimate of when the Herzfranz contact will take place.

1. The security breach, so hastily assumed by the author of reference, did not take place. We are amazed that the breach was accepted without an effort to assess the compromise. For your information, the facts are the following. We made out a deposit slip for the Banque Internationale in the Station and signed it with a fictitious name (Pierre Copel) and address. The deposit slip and money were taken to the bank by OBERHEIDE. This was done because, a. we are known personally to employees of the bank and OBERHEIDE is not, and b. if any documentation was requested by the bank, OBERHEIDE was to explain that she was just a messenger and would have to return for it. The transaction was carried on in French. The only additional information requested by the bank was OBERHEIDE's name, which she gave as Jeanne Leconte. ICRIUT notwithstanding, QJWIN's reference to the American Embassy was apparently an assumption on his part. While it is not at all impossible that QJWIN has identified us in this small town, we have made no reference to him of our cover job and have used only the name "Pierre" with him.

2. QJWIN was contacted at 2100 hours, 30 June 1961. He was again told that he would be kept in Europe for at least six months and that we considered our contract with him valid for the work he was performing for us in Europe. QJWIN readily agreed.

3. QJWIN was informed per paragraph 4, sub-paragraph 2 of reference and he expressed his appreciation. He has entered his eldest child in the European School in Luxembourg for the September 1961 - July 1962 year.

4. QJWIN was told that the need to recontact the candidates in France was recognized. QJWIN has taken no initiative on this, however Roland GAILLARD was in Luxembourg City during the week of 25 June 1961 and contacted QJWIN on 28 June. The only reference made during their meeting to QJWIN's candidate was GAILLARD's query if the deal was still on. QJWIN told him that as far as he knew, things remained as he had originally outlined. He explained that "They" (his sponsors) took their time and he suggested that GAILLARD request the candidate to be patient. QJWIN was instructed to take no initiative in recontacting the candidates and was told that we would tell him when. QJWIN does not believe he would be successful in securing the identities of either candidate (he mentioned only two) by another visit to them. He mentioned the idea, previously discussed with KADNEY, of arranging a contact with each of them individually in a hotel outside of France so that he could obtain their identities used for the hotel registration. QJWIN has a means of communication to each candidate without his (QJWIN's) presence in France and believes he could arrange such a hotel contact. We suggest that, if it is requested that QJWIN recontact one or both candidates, the above method be used.

5. QJWIN mentioned that he had discussed one Camille SERVAIS with KADNEY. SERVAIS is a Belgian who has a cafe in Stockern, Belgium, near Arlon. SERVAIS and an unidentified type visited QJWIN on 30 June for the purpose of asking him to find someone to purchase some stolen stocks. QJWIN reportedly told them he had no capability. During the conversation, SERVAIS told QJWIN that he knew two professional safe men. When we asked for the details of how this came up, QJWIN explained that he had told SERVAIS it was foolish to take such easily traceable things as stocks if he ever got into a safe, and then asked SERVAIS if he knew any safe-men. After mentioning that he knew two men, SERVAIS asked QJWIN if he had a job for them. QJWIN replied that he did not, but one could never tell. We have not been informed of any interest in SERVAIS and we told QJWIN not to make any similar gambits unless instructed.

6. We discussed possible relocation with QJAIN, per paragraph 4b of reference. As a personal preference, QJAIN would prefer not to settle in Germany, but he would follow our direction. He had no suggestions regarding valid employment outside Luxembourg aside from a past offer by Ezio MASCI (OLIA-1232) to get him a job as a commission salesman for a large Italian flour mill. This would not require his residence in Italy and he thought it would even be preferable for business reasons if he lived in Switzerland, for example. QJAIN was asked to reflect on the possibilities for discussion at the next meeting.

7. We questioned QJAIN on his present situation in Luxembourg and he advised that he has had no indication of suspicion or questioning on the part of his friends or acquaintances. He believes his friends assume he has had some successful deals. In discussing possible legitimate employment to cover his income in Luxembourg, QJAIN mentioned his past experience of arranging holding companies and suggested that he could open an office for this purpose. According to QJAIN, there is no fiscal control of such a business other than the requirement that a statement of earnings be published every two years. His job would be to arrange all the paper work and provide the Luxembourg citizens required to participate in the establishment of a holding company. This is presently a lucrative side-line for lawyers in Luxembourg, but QJAIN assured us that it would be perfectly normal for him to make it a full time occupation. He estimates that he would need an office (c. 2,000 Bfr/month rent) and telephone, with the only other overhead being advertizing in several foreign newspapers. He believes that, with a capital of 20,000 Bfr, to furnish the office and pay the printer, he could open up shop.

8. We believe the above idea is a natural for resolving QJAIN's cover (and eventually morale) problem in Luxembourg and also furnishing him a legitimate background if and when he is moved from Luxembourg. If you agree in principle, we will go into more detail with QJAIN on the subject.

9. QJAIN asked if he could purchase a car. We told him we had no objection as long as it was low-priced and he paid for it in monthly installments.

10. We paid QJAIN 30,000 Bfr for June. Receipts for May and June are being sent under separate cover. Future accounting per paragraph 3 of reference was explained to him and he was requested to bring any receipts for his April trip to the next meeting.

CIA HISTORICAL REVIEW PROGRAM

RELEASE IN FULL 1998

DISPATCH		CLASSIFICATION TOP SECRET	DISPATCH SYMBOL AND NO CIA - 1232
TO Chief, WFO Attn: Division 1 Attn: James W. Rabney	FROM C.S., Luxembourg <i>CS</i>		HEADQUARTERS FILE NO
SUBJECT Lombardy/Lombardy Wain trip to Italy	DATE 3 March 1961		RE 433 - (CHECK "X" ONE)
ACTION REQUIRED		MARKED FOR INDEXING	NO INDEXING REQUIRED
REFERENCE: L.R.-26600		INDEXING CAN BE JUDGED BY QUALIFIED HQ DESK ONLY	

1. Per LOMB 288, Wain was briefed on his mission to Italy on 25 January 1961 and told to return no later than 13 January. The following is Wain's report of his trip. He left Luxembourg on 30 January and went to Rome. In Rome he telephoned Milan and arranged a meeting for the following day with

Ezio Lombi, born circa 1923, address via Rosciola, Milan. Wain has known Lombi for several years and has had contact with him on several smuggling deals. Lombi considers him intelligent and trustworthy. He presently has a poison de transit (bonded warehouse) at Chiasso on the Swiss/Italian border. Lombi has an arrangement with the Italian customs people whereby he can juggle customs rates as well as pass anything over the border - "including a trainload of coal, if necessary."

2. Wain contacted Lombi on 31 January and, after reviewing old times and present prospects in the smuggling business, indicated his desire to locate some Italian second-story men. Lombi had no direct knowledge of the type in question and referred Wain to

Ladberto Lombi, born circa 1911, address 23 Via Teodosio, Milan. Co-owner of LOMB, an export-import firm in Milan. (see att. C).

Lombi described LOMB as highly regarded by himself and others of his profession. Lombi had smuggling deals with LOMB and always found him correct and a man of his word. Lombi arranged a meeting between Wain and LOMB in the latter's office on 2 February.

3. At their initial meeting, Wain did not broach the subject of the candidates with LOMB. This contact was used to establish bona fides and rapport. Lombi recommended several Belgian smuggling contacts and Lombi explained some of his operation. He has apparently been in business for some time and has smuggled strategic materials to Czechoslovakia and Yugoslavia as well as the standard items, such as cigarettes. One of his tricks is to use IIR (transport International Routiere) trucks which are sealed and pass from the loading company to the consignee's country without border inspection. Lombi has the capability of breaking the seal, loading or unloading the contraband, and resealing the load while the truck is in transit. Wain found Lombi intelligent and with all the attributes of a good businessman. While the question of politics did not come up, Lombi would place him as apolitical. Lombi gave the impression of being well informed concerning most of the illegal activity in Milan. Lombi gave Wain the following name and address which he described as that of his "wife and children" and where he received his mail:

Mrs. LOMB
6, Via Rimini, Milan
Telephone: 724401

4. At the next meeting Wain told Lombi that he represented the interests of an important group who were looking for a good burglar, preferably one who had knowledge of safes, who could do a job outside of Italy. After receiving assurances on the seriousness of the affair, Lombi recommended a person (LOMB 297) who he thought would be available and who had traveled outside of Italy. He did not give Wain the name, but made several phone calls from a public booth in Wain's presence in an attempt to contact him.

CONTINUATION OF
DISPATCH

ULLA - 1232

WJALMA 1 should ever enquire, to tell him that what he had been involved in was only a one-shot deal and he has had no further contact.

13. Regarding the timing for WJALMA's signature on the contract and moving him to Leopoldville, we will be out of Luxembourg from 26 March to 9 April.

Mr. saw him at place

sketches following page.

Conformément à la promesse qu'il m'avait faite au téléphone, R. Besta m'a fait faire la connaissance de la personne que je recherchais. L'entrevue a eu lieu dans un petit café voisin de la via Santa Margherita (près de la Scala).

Mr. Besta m'avait averti auparavant qu'il ne s'agissait pas de l'individu dont il m'avait parlé tout d'abord; pour certaines raisons qu'il ne m'a pas révélées, celui-ci ne lui paraissait pas parfaitement sûr.

Il s'agit d'un nommé Aldo BARLETTA sur lequel j'ai pu avoir les renseignements suivants :

Domicile : Via Passione, 11 à Milan.

Téléphone : 796.947.

Profession de couverture : représentant pour la Lombardie la maison Renzo Ghiro, spécialisée en céramiques et fers forgés. S'occupe effectivement de cette affaire de couverture.

Profession réelle : spécialiste en effraction de coffres-forts. Cela implique qu'il est tout aussi capable d'entrer dans un local.

Aspect physique : taille moyenne, cheveux bruns commençant à grisonner aux tempes. Age : environ 45 ans. Normalement vêtu, passe parfaitement inaperçu.

Antécédents judiciaires : jamais condamné. D'après lui-même et Besta, n'a jamais eu affaire à la police.

Papiers d'identité : en possession d'un passeport italien valable. Les passeports italiens sont délivrés pour un nombre de pays limités (toute l'Europe occidentale). Une demande est nécessaire pour se rendre dans quelque autre pays.

Ce qu'il sait de l'affaire : je lui ai dit qu'il travaillerait pour le compte d'une importante société commerciale, désireuse de s'approprier certains documents commerciaux.

Ce qu'il demande : des renseignements précis (si possible avec plan) du travail qu'il aura à faire, ainsi que des circonstances particulières (voisinage, isolement, rondes etc.)

Cas particulier : s'il s'agit d'un coffre-fort, il demande à connaître auparavant la marque et l'année de construction. Ceci pour apprendre (il le peut) l'alliage du métal, les combinaisons etc. Possède tout l'outillage nécessaire.

En cas de nécessité, il fera l'affaire avec un de ses amis avec lequel il a l'habitude de travailler.

Discrétion et prudence : il semble posséder ses qualités, puisqu'il n'a jamais été condamné. Ses qualités techniques m'ont été certifiées par Besta qui semble, dans son genre, le tenir en haute estime. J'ai l'impression très nette que Besta a de bonnes raisons de le savoir.

Paiement : Je lui ai, selon vos instructions, garanti de remboursement des frais qu'il aurait à faire. Quant au paiement, il insistait tellement pour avoir un ordre de grandeur, que je lui ai parlé de "bien plus de mille dollars", suivant les difficultés. J'ai dû m'avancer, car ces gens aiment les précisions quand il est question d'argent.

Contact : Il préférerait que le premier contact soit pris par mon intermédiaire. Néanmoins, si cela était impossible, votre amicaire (qui devrait parler italien) devrait lui téléphoner aux heures de repas et lui demander un rendez-vous de la part de "Giacomo" (Djigomo), avec qui il a bu un espresso le lundi matin.

C'est le mot de passe convenu.

Sur sa demande, quand il pourrait être employé, je l'ai prié de patienter dix à quinze jours.

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

OLLA-1925, 14 FEBRUARY 1964

1. QJWIN HAS BEEN TERMINATED. ROZENY TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, ROZENY SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, OLLA-1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING ROZENY'S DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH ROZENY MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. ROZENY HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. RABNEY IS KNOWN TO QJWIN BY TRUE NAME. ROZENY USED THE NAME "P. RABNEY" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED ROZENY'S TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE, BEING DISMANTELED IN OCTOBER OF THIS YEAR. SEE FORWARDED UNDER SEPARATE COVER.

OLLA-1925, 14 FEBRUARY 1964

1. QJWIN HAS BEEN TERMINATED. ROZENNEY TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, ROZENNEY SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, OLLA-1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING ROZENNEY'S DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH ROZENNEY MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. ROZENNEY HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. ROZENNEY IS KNOWN TO QJWIN BY TRUE NAME. ROZENNEY USED THE NAME "PIERRE" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED ROZENNEY'S TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE. THE STATION IS BEING DISMANTELED IN OCTOBER OF THIS YEAR. QJWIN'S ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

MEMORANDUM FOR: William E. Harvey

SUBJECT: Authorization of ZRRIFLE Agent Activities

REPRODUCTION
PROHIBITED

1. For the purpose of ZRRIFLE activities, you are hereby authorized to retain the services of Principal Agent QJWIN and such other principal agents and sub-agents as may be required. This authorization will continue to be in force through 31 December 1962, subject to renewal at that time.

2. As established by contract with him, QJWIN's salary will be \$7,200 per annum. Accounting for the expenses of QJWIN and other agents involved in this activity will be in the form of receipts for funds received by them, and these receipts will be retained in the ZRRIFLE covert operational file. Because of the sensitive nature of this activity, accounting for funds will be by general category and by your certification. In addition to the salary established for QJWIN, you are authorized the expenditure of \$7,500 through 31 December 1962. If further funds are necessary, they will be provided.

3. This memorandum is to be considered in lieu of project and constitutes authorization for all travel, per diem, operational and other expenses.

4. It is requested that this activity be handled strictly on an EYES ONLY basis.

SUBJECT: Interview With Staff of the House Select
Committee on Assassinations (HSCA) (S)

4. (S) Mr. Blakey observed that every organization has its formal, on-paper structure, but it also has a second, informal structure, which is the one that really determines how the organization works. He can understand CIA's formal organization, but the second one is more difficult for him to comprehend. Speaking of Bill Harvey, he asked whether I knew him. I said I did. This led to a discussion about how it could have happened that Harvey, as Chief, Division D, could have been engaged in operational activity which seemed to have nothing to do with Division D's responsibilities, as a service element of CIA. I said that when I came into the Agency in 1948, Harvey was already a very senior and respected officer: that in subsequent years he had a very close relationship with Mr. Helms, and if the latter had given Harvey some special assignment, Harvey could easily have carried it out in a compartmented way alongside his regular duties. I pointed out that since Division D itself was a compartmented activity, it would not surprise anyone if the Chief of the Division were handling personally an especially compartmented activity. Mr. Blakey wanted to know how Harvey could have gotten personnel and funds to carry out his assignment. I said he would probably borrow the personnel in the name of the Director, and he would get his funds in the regulation manner, probably from an account under the Director's control. But he might not need either: he might use people who would simply handle his needs in addition to their regular assignments.

5. (S) Mr. Blakey asked me if I knew who QJWIN was. I said I of course knew the crypt from its appearance in the Rockefeller Commission Report, and that "QJ" was a digraph for a C 15 station source, agent or operation and I knew QJWIN was C 15 3 Mr. Blakey did not pursue the question.

6. (S) Mr. Blakey asked what kind of files Division D kept, and I said they were all devoted to the operational activities of the Division: that, except for our own personnel, there were no files on individuals. Mr. Cornwell asked if Harvey had had any personal files and I said that if he had, he had not left them behind in Division D, and I doubted very much if he had left any behind when he left the Agency. The HSCA staffers had no further questions.

[16-3] 43699 (IN 0258730) Review of FBI Documents

8. J.C. King. He was Chief of the WH Division and was listed in the IG report as being witting of the plan. In 1967 he denied knowledge of it.

9. Justin O'Donnell. Mentioned on page 38 of the report, O'Donnell was to have been in charge of the assassination of Patrice Lamumba by agent QJWIN; however, he surveyed the scene and decided he wanted no part in an assassination attempt.

10. [REDACTED] He was Harvey's deputy in 1962 and was listed on page 55 as having been witting of Phase II.

11. Lawrence Houston. First mentioned on page 62 of the report. He was requested by Colonel Edwards to call on an Assistant Attorney General to explain the bugging incident in Las Vegas. It appears from the IG report that Houston was witting of aspects of Phase I which led up to the wiretapping incident. On May 7, 1962, Houston, along with Sheffield Edwards, briefed Attorney General Kennedy on the Phase I operation.

12. General Carter. Carter was DDCI under John McCone. In April, 1962, he was briefed by Houston on Phase I. He said he "understood" the situation and "in due time might brief the Director, Mr. McCone." However, the 1967 report states, "There is no indication that General Carter was further briefed on the full details of the assassination plot against Castro."

13. Robert A. Maheu. Maheu, of course, was the private investigator who served as the Agency's contact with Roselli during Phase I.

14. Edward P. Morgan. He was Maheu's attorney in 1966 when the CIA intervened with the Long committee. He excused Maheu as a witness in its investigation of invasions of privacy. According to the IG report, Maheu indicated that he might brief his attorney Morgan fully about his past activities so that Morgan would be able to decide how best to represent him.

15. Desmond Fitzgerald. Fitzgerald became head of the Cuban task force in January, 1963. Mentioned on page 75 of the report, Fitzgerald said that the skin diving suit plan began while he was head of the Cuban task force.

16. Samuel Halpern. The IG report, page 75, states that Halpern said the skin diving suit plan had begun under William Harvey and that he, Halpern, had briefed Fitzgerald on it.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present under-cover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer except perhaps for minor accountings, be considered as a part of this project.

1. QJWIN HAS BEEN TERMINATED. ROZENY TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, ROZENY SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, OLLA-1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING ROZENY'S DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH ROZENY MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. ROZENY HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. RADNEY IS KNOWN TO QJWIN BY TRUE NAME. ROZENY USED THE NAME "PIERRE" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED ROZENY'S TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE. THE STATION IS BEING DISMANTELED IN OCTOBER OF THIS YEAR. THESE ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

31 January 1961

MEMORANDUM FOR: Chief, Accounts Branch, Finance
Division

SUBJECT: Payments to QJWIN

1. QJWIN was recruited in Frankfurt 1 November 1960 to undertake a one-shot mission to the Belgian Congo. Because the mission potentially involved great personal risk to him and he was obliged to separate himself from his business affairs, it was agreed orally by this writer with QJWIN that his compensation would be at the rate of \$1,000.00 per month, plus his expenses, for a period of not less than one month and not more than two months.

2. Prior to departing for the Congo QJWIN was obliged to travel to several European countries in order to make cover arrangements. The entire period of his employment from the beginning of his mission until his return from the Congo covered the months of November and December, 1960. For this period he has been paid completely in various sums by the Luxembourg and Leopoldville stations and this writer who paid him \$100.00. Receipts exist for all payments of salary to QJWIN. There are, in addition, operational expenses for which he has been reimbursed by the Luxembourg and Leopoldville stations which will forward receipts.

1 years I have seen literally --

2 (Discussion off the record.)

3 Mr. Halley. Let me go back. You asked me about ZRRIFLE.
4 This is one of a thousand or hundreds of cryptonyms. Every day
5 I read, you know, hundreds of pages of traffic, so when you ask
6 me do I know what ZRRIFLE is, I must answer you off the top of
7 my head no. I have tried to be helpful. I have asked you
8 several times if you could give me a steering tip or show me
9 what direction you are going, I might be able to try to comment
10 on it, but ZRRIFLE as such means nothing to me. You really
11 could not expect that it would, given the thousands of these
12 things that come across my desk.

13 Mr. Baron. That is absolutely understandable. I want to
14 try to see what happens in the way of getting an unrefreshed
15 recollection from you, then I will go back over these two,
16 especially the next one, QJWIN. Do you recall a CIA asset who
17 went by the cryptonym QJWIN?

18 Mr. Halley. No, I do not. Knowing the system, and so
19 forth, normally it would have something to do with [REDACTED] It
20 does not ring any bells with me. That is all I can give you,
21 a sort of Pavlovian response. You flash QJWIN on the screen,
22 I am telling you now I do not know, but it probably has
23 something to do with [REDACTED]

24 Mr. Baron. Were you aware that a project involving the
25 development of a capability of carrying on assassination was

~~TOP SECRET~~

~~TOP SECRET~~

91

1 run by William Harvey?

2 Mr. Halley. To develop the capability to carry on the
3 assassination?

4 Mr. Baron. Yes.

5 Mr. Halley. No. I have no knowledge of Harvey being
6 focused on a project or given the capability of carrying one
7 out.

8 Mr. Baron. Harvey has testified, as has Richard Bissell,
9 I will represent to you, that instruction was given by Bissell
10 to Harvey to set up, to develop such a capability in early 1961
11 and that Harvey took steps to develop such a capability in
12 coordination with an asset in New York named QJWIN and I think
13 that period of greatest activity was in 1962 and WIN was
14 involved in spotting potential assets among the criminal under-
15 world in Europe and might be used for any number of dirty
16 deeds.

17 Mr. diGenova. It should be emphasized that the Executive
18 Action Plan that you are referring to has had as its goal the
19 incapacitation of foreign leaders, one possibility of
20 incapacitation being the ultimate weapon, assassination. It
21 was just not assassination. It was a spectrum of activities
22 that could be used to incapacitate a foreign leader anywhere
23 from illness, chemical warfare, and then including death.
24 Correct me if I am wrong, but it was not just assassination.

25 Mr. Baron. Does that ring any bells?

It is possible to draw some speculative comparisons between Harvey's blue-print for assassination and the killing of John Kennedy but the Committee has no indication that the similarities are anything more than coincidence.

Seth Kantor has alleged that the main CIA agent in project ZRRIFLE, a man known as QJWIN, 26/ bailed Thomas Eli Davis, a friend of Jack Ruby's, 27/ out of a Morrocan jail. 28/ In December 1963 Thomas Eli Davis

was being held by the Moroccan National Security Police because of a letter in his handwriting which referred in passing to 'Oswald' and to Kennedy assassination. 29/

The Committee has not investigated Mr. Kantor's allegation that QJWIN bailed Mr. Davis out of the Morrocan jail, Mr. Davis' relationship with Ruby, or Mr. Davis' possible involvement in the assassination.

Even though Mr. Harvey personally had a motive, 30/ and had access to the means and the opportunity, 31/ to kill Kennedy, the above discussion represents the sum of the investigation conducted by this Committee into any possible connections between ZRRIFLE and the assassination.

OLLA-19257 14 FEBRUARY 1964

1. QJWIN HAS BEEN TERMINATED. ROZENY TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, ROZENY SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, OLLA-1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING ROZENY'S DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH ROZENY MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. ROZENY HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. RADNEY IS KNOWN TO QJWIN BY TRUE NAME. ROZENY USED THE NAME "PIERRE" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED ROZENY'S TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE. THE PHONE IS BEING DISMANTELED IN OCTOBER OF THIS YEAR. THE ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

SUBJECT: QJWIN TERMINATION

ACTION REQUIRED - REFERENCES

OLLA-19257 14 FEBRUARY 1964

1. QJWIN HAS BEEN TERMINATED. ROZENY TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, ROZENY SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, OLLA-1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING ROZENY'S DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH ROZENY MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. ROZENY HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. RABNEY IS KNOWN TO QJWIN BY TRUE NAME. ROZENY USED THE NAME "PIERRE" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED ROZENY'S TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE, BUT THIS PHONE IS BEING DISMANTELED IN OCTOBER OF THIS YEAR. QJWIN'S ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

TECHNICAL INTERROGATION REPORT

SUBJECT: QJWIN

IRD #34,944

**CIA HISTORICAL REVIEW PROGRAM
RELEASE AS SANITIZED
1999**

1. IDENTIFYING DATA:

Subject of this case is a 44-year-old Luxembourg citizen who has been utilized by this Organization since the end of 1960 in several sensitive operations.

2. PROCEDURE:

On 31 March, 1961, at the request of the Case Officer, JAMES N. RABNEY, Subject was technically interrogated in the French language at a safe site in Frankfurt, Germany. The purpose of the interrogation was to aid in determining whether Subject:

- (a) is presently working for any other intelligence service;
- (b) has told IDENTITY B, or anyone else, about the operations in which he has been engaged for PBPRIME Intelligence Service;
- (c) has honestly reported about the work that he has done for PBPRIME Intelligence.

3. DETAILS:

The following information was developed during the interview and the technical interrogation:

Subject stated that in circa 1953-1954 he was approached by IDENTITY C, a Belgian citizen, whom he had known since 1947, to obtain a sample of a new model Belgian gun for the benefit of an Eastern country. Subject reported this incident to IDENTITY D, who referred him to IDENTITY B and to IDENTITY E, a PBPRIME official at Bitburg Air Base.

Subject advised that upon his return from Leopoldville, he visited IDENTITY B, but did not discuss his work with the PBPRIMES. Their conversation concerned the situation in the Congo, in general. While in Leopoldville, Subject met a IDENTITY F, who passed himself off as an Austrian, flashed a backroll, and attempted to recruit Subject to work for an undetermined Western intelligence service, hinting that he was working for the PBPRIMES. Subject reported this to his local Case Officer.

Subject stated that his wife is acquainted with IDENTITY B and is aware that he had a clandestine relationship with him. She is also aware that he presently has a clandestine relationship with the PBPRIMES without knowing the exact nature of it. Subject describes his wife as extremely discreet in these matters.

While he was in Leopoldville, a sum of money was deposited to his wife's account at the Banque Internationale de Luxembourg. The deposit was made, ostensibly, by the PBPRIME Embassy in Luxembourg. However, Subject's wife did not question this but it is obvious to her that he is employed by some PBPRIME Agency.

Subject stated that he suffers from low blood pressure and a minor heart condition which has been diagnosed as caused by "nerves" and not as an organic condition. He occasionally takes MEDINAL, a Belgian patent medicine containing barbiturates. He was unable to obtain it in Leopoldville and consulted an unidentified medical doctor there, who gave him a similar prescription which, however, he did not use.

Following pertinent questions were asked during the technical interrogations:

- 3. With the exception of those which you have mentioned, have you collaborated with any other intelligence services?

Answer: No.

Subject stated that he had collaborated with the Luxembourg, Belgian and W. German Intelligence Services and the French Moquis before his current association with the PBPRIMES. His collaboration with the Belgian Intelligence Service was limited to the gun incident and the

RYBAT - SECRET

collaboration with the W.German Intelligence Service occurred circa 1954 when he informed the Luxembourg Service of his suspicion regarding a IDENTITY G, in Bonn. The information was passed through liaison channels to the BND, and Subject did not meet anyone of the West German Intelligence Service.

Subject stated that he is also known to the French and Belgian Police Departments in connection with his illegal business transactions.

Subject stated his only direct contact with representatives of a Communist Government occurred when he called at the Rumanian Trade Mission in Berne, Switzerland, in connection with a business deal in which he was engaged in IDENTITY A.

4. Are you presently giving information to the Luxembourg Service?

Answer: No.

5. With the exception of the PBPRIMES, are you secretly collaborating with a Western intelligence service?

Answer: No.

7. Are you secretly cooperating with a Communist intelligence service?

Answer: No.

10. Do you correspond with anyone in a Communist country?

Answer: No.

13. Did you reveal to anyone the details of your secret association with the PBPRIMES?

Answer: No.

15. Did you complete, honestly, your secret missions for the PBPRIMES?

Answer: Yes.

17. With the exception of the ones you told me, is there anyone else who knows that you work for the PBPRIMES?

Answer: No.

Subject mentioned that only his wife and IDENTITY B know of his association with PBPRIMES.

21. Did you tell IDENTITY B the details of your work for the PBPRIMES?

Answer: No.

25. Did you reveal to anyone the nature and the details of your mission for the BPRIMES in Leopoldville?

Answer: No.

26. Did you honestly report to us everything that took place in Leopoldville?

Answer: Yes.

31. While in Italy and Switzerland in February, 1961, did you indicate to anyone that you were associated with the PBPRIMES?

Answer: No.

32. While in Italy and Switzerland in February, 1961, did you indicate to anyone that you had a secret mission for the PBPRIMES?

Answer: No.

33. While in Italy and Switzerland in February, 1961, did you indicate to anyone the nature and the details of this mission?

42. Did you reveal to IDENTITY B the details of your mission for the PBPRIMES in Leopoldville?

Answer: No.

44. Did you reveal to IDENTITY B the details of your mission for the PBPRIMES in Italy and Switzerland?

Answer: No.

5b. Are you presently working for the French Intelligence Service?

Answer: No.

5c. Are you presently working for the Belgian Intelligence Service?

Answer: No.

5d. Are you presently working for the Luxembourg Intelligence Service?

Answer: No.

5f. Are you presently working for the West German Intelligence Service?

Answer: No.

7c. Are you presently working for the Soviet Intelligence Service?

Answer: No.

7f. Are you presently working for the East German Intelligence Service?

Answer: No.

4. CONCLUSION:

An analysis of Subject's charts indicates that Subject is not currently collaborating with any other intelligence service and has honestly and discreetly accomplished his PBPRIME Intelligence Service assigned missions.

In view of Subject's close relationship with IDENTITY D, it is recommended that Subject be afforded technical interrogations following any assignments he may be given in the future.

WIROGUE/1 was being prepared for deep cover assignment to arrive Leopoldville late November. Headquarters noted ~~his~~ intent to use him as utility agent in order to "(a) organize and conduct a surveillance team; (b) intercept packages; (c) blow up bridges; and (d) execute other assignments requiring positive action. His utilization is not to be restricted to Leopoldville. Indeed, he may be subject to call by other African stations although it is expected for him to be resident in Leopoldville." In this cable WIROGUE/1 was described correctly as an inventor, photographer, architect, forger and former bank robber. He was judged to be ingenious, observant, shrewd, glib and one who relished intrigue and daring. He was assessed as able to "learn quickly and carry out any assignment without regard to danger." As he was in the United States black, the plan was for him to depart black, documented as an ["] to surface in West Germany and from there to proceed on his own to Leopoldville. In November 1960 "to prevent his identification with the U.S. Government or BKHERALD and to preclude any unexpected recovery of his past which would associate him with his pre-BKHERALD life", WIROGUE/1 underwent plastic surgery to change the shape of his nose. He was provided a toupee for constant wear and documented as an ["] who had never been to the United States. Cover for his presence in Leopoldville was to be as ["] possibly that of a ["]. A rather lengthy assessment of his character can be summed up by saying he was able to rationalize any action if he had strong case officer direction. Training records for WIROGUE/1, subsequent to his engagement by the Africa Division, indicate training only in SW.

WIROGUE/1 arrived in Leopoldville on 2 December 1960. His case officer gave him the following instructions: (a) to build cover possibly by opening a ["] and (b) to try to spot persons for a surveillance team, intel assets, particularly in Oriental province, and para-military assets. Almost immediately upon arrival he ran into QJWIN who told the station that WIROGUE/1 looked like an intelligence agent. In attempting to recruit QJWIN for his "execution squad", WIROGUE/1 exceeded his instructions to avoid making approaches without checking with Leopoldville station.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present under-cover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the German Station or by the Austrian Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and RABNEY be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the German and Austrian stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer be continued except perhaps for minor accountings, be considered as a part of this project.

Response:

A search has been made for the files of the Chief, WH Division in 1967 (Desmond Fitzgerald), and those of Col. J. C. King. At that time Mr. Fitzgerald was alive; he has since died and his files do not exist as an integral collection, although portions may exist in different holdings in WH Division. Col. King had retired at the time of the IG inquiry, but he was still working under a special contract and was at the Headquarters Building at Langley where he had retained some personal files; his files are no longer identifiable.

Other materials, reviewed by the Inspectors in 1967 were limited in nature, some of which have been made available to SSC Staff members in envelopes in which they have been held since 1967. The SSC Staff members have had access to the project files of QJWIN, WIROGUE, ZRRIFLE and [2]DEED.

Should they wish access to the files relating to the anti-Diem coup, they can be made available on request.

116 Testimony varied as to the meaning of the phrase "direct positive action" and of General Cabell's response in the November 3, 1960 memorandum.

Gray testified that it could be taken to include assassination, but he did not know whether Mr. Merchant intended to refer to assassination or not. (Gray, 7/9/75, p. 9)

116 Parrott, the author of the memorandum, testified that, although he had no recollection of the November 3, 1960 meeting, it was his opinion, based on the context of weekly Special Group meetings and discussion in the fall of 1960, that this discussion centered on the possibility of a palace coup, as opposed to a paramilitary operation mounted from outside Cuba. General Cabell was indicating that "we simply do not have agents inside of Cuba to carry out this kind" of a coup. (Parrott, 7/10/75, pp. 19-21) Parrott also testified that the phrase "direct positive action" was not a euphemism, and that he did not employ euphemisms in Special Group records, except for references to the President.

112 According to the records of the Eisenhower Library, Dulles was alone with President Eisenhower on one occasion in the fall of 1960. That meeting lasted ten minutes and occurred on November 25, 1960. The record of the previous portion of the meeting attended by Gray indicates only that, in addition to discussion of operations in another country, "there was also some discussion of Cuba." 75 Mahen told the Committee that at that time, Hughes was becoming an important client, and that devoting time to the CIA's assassination plot was hindering his work for Hughes. He testified that shortly before the election in November 1960, while he was in Miami working on the assassination project, Hughes phoned and asked him to return to the West Coast. Mahen testified that since he did "not want to lose" Hughes as a client, he "definitely told him that the project was on behalf of the United States Government, that it included plans to dispose of Mr. Castro in connection with a pending invasion." (Mahen, 7/29/75, pp. 22-23)

120 In the latter part of November 1960, after the Presidential election, Dulles and Bissell jointly briefed President-elect Kennedy on "the most important details with respect to the operation which became the Bay of Pigs." (Bissell, 6/9/75, p. 34) Bissell testified that he did not believe the ongoing assassination efforts were mentioned to the President-elect at that meeting. (Bissell, 6/9/75, pp. 27, 35-36)

~~SECRET/CONFIDENTIAL~~

INSPECTOR GENERAL

75-2312

20 June 1975

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Mr. Burt Wides (Senate Staff Member)

1. On the afternoon of 17 June 1975, Mr. John Leader of the IG Staff visited Mr. Kennedy and asked that the undersigned be present. Mr. Leader said that Mr. Burt WIDES of the Senate Staff had asked to see Mr. David Whipple and the undersigned. Apparently Mr. WIDES had read some old files relating to Africa and wanted to clear up some questions. According to Mr. Leader the discussion would be informal. However, it was possible that subsequent discussions would, depending on what emerged from these discussions, would be before a larger Senate Staff Group. The files which Mr. WIDES read were WIROGUE, QJWIN and one other (unknown). It was agreed that the undersigned would see Mr. WIDES to see what he wanted, as WIROGUE/1 was run by myself in the early 1960's.

2. At approximately 1615 hours the same day I met with Mr. WIDES. No other persons were present. Mr. WIDES explained that Mr. William Harvey had been asked by Mr. Bissell to look into the feasibility of establishing an "executive action" capability within Staff "D". Aside from the allegations related to Mr. Harvey's activities with relation to Fidel Castro, he, Mr. WIDES had noted that Mr. Harvey's Deputy, Justin O'Donnell had gone to the Belgian Congo and had handled an agent encrypted QJWIN. The asset had a similar background as WIROGUE/1 and had on one occasion according to the files been approached by WIROGUE/1 in Leopoldville with a proposition to establish what Mr. WIDES believes is an "execution squad." Moreover, there was a cable in the file relating to the above which stated that "WIROGUE/1 exceeded his authority" written by the undersigned and sent by Mr. Bronson Tweedy. Mr. WIDES went on to say that when he was reviewing a summary of the WIROGUE/1 case he noted a statement that WIROGUE/1 would be trained in small arms, demolition and "innoculation." Mr. WIDES admitted that since he called

for me he had reread the summary and it was apparent that what was meant WIROGUE/1 was to get inoculations. Nonetheless, although this may be the case he was interested in WIROGUE/1 possible connection with QJWIN, WIROGUE/1's training, handling and mission.

3. Mr. WIDES said he knew, from the file that WIROGUE was originally trained for a SB mission, which was canceled, he had received training for that mission and later Messrs. [] and Lester Houck had met with him and decided to pick him up for utilization in the Congo. He also knew that I had handled him while in the U.S., met him in Frankfurt and briefed him prior to his dispatch to Leopoldville. Also that while in the U.S. WIROGUE had undergone plastic surgery. Mr. WIDES asked specifically what training did WIROGUE receive and what was his mission. I told him that I had forgotten after thirteen years about his plastic surgery [] and this was done as an accommodation to WIROGUE. His training in small arms and demolition was just that and I accompanied him at the training site during the training. I met him in Frankfurt to brief him on his new documentation, namely backstopped [] and to take him to Switzerland where a sum of money was deposited in a Swiss bank and a letter of credit was given to him whereby he could enter Leopoldville. His mission was to establish himself, namely by opening a [] shop using the letter of credit. He was to be available to the Station for paramilitary activities once he was established and the need arose. Unfortunately, WIROGUE, being of a criminal persuasion took the opportunity of the chaos in the Congo to engage in money-making propositions for personal gain, didn't follow instructions and became a handling problem. The Station recognized in a short period of time that WIROGUE needed a full-time handler and didn't have the luxury of manpower to do so. He was eventually returned to the U.S. and terminated. As for the comment of "execution squads" I simply did not recall it but if he was contacting people on his own he probably did exceed his authority. Mr. WIDES asked if WIROGUE received "special handling" as opposed to other agents. I replied that in a sense he did as WIROGUE was a stateless person who required careful supervision. On the other hand, Lester Houck was enamored with this type personality and wanted to ensure WIROGUE was kept happy.

4. Mr. WIDES then zeroed in on QJWIN, wanting to know if I knew the case, or that Justin O'Donnell was handling him and if so what was his mission. I told him that QJWIN meant nothing to me nor was I aware that O'Donnell handled him; as a matter of fact I do not recall O'Donnell being in the Congo. Upon probing I explained that I was not the Desk Officer for the Congo and was assigned to another section within the Branch. Only reason I was given the WIROGUE case was due to a decision by

~~SECRET/SENSITIVE~~

~~SECRET~~
~~CONFIDENTIAL~~

Lester Houck who felt that a Case Officer having European experience have the case which I had. Mr. WIDES asked if [,] saw all the WIROGUE traffic. I responded that as [] was responsible for the Congo, undoubtedly he did. He then asked if Messrs. Tweedy and Houck would see it. Again affirmative. Mr. WIDES then reviewed the Lumumba arrest and subsequent assassination and asked if I knew if either QJWIN or WIROGUE were in any way involved. I replied in the negative.

5. Mr. WIDES then harked back to the "innoculation" training. He explained that he has sworn statements that the use of biological warfare was contemplated in the Congo and wanted to know if WIROGUE was trained in these techniques. I stated categorically that to my knowledge WIROGUE was never trained in these techniques, nor was I aware they existed or ever considered. Mr. WIDES assured me they did, however his interview was simply to see if there was a connection between QJWIN and WIROGUE and to clear up this little question of "innoculation" which admittedly was resolved before the interview began.

6. A final note, Mr. WIDES asked if Mr. Glenn Fields was Mr. Tweedy's Deputy while I was in Africa Division. I said yes. Then Mr. WIDES thanked me and said that the matter was closed.

QJWIN

**CIA HISTORICAL REVIEW PROGRAM
RELEASE AS SANITIZED
1997**

According to statements by a senior CIA officer in 1967, made to the Inspector General, the Agency was instructed to develop a capability to conduct assassinations. Termed an "executive action capability," such a project was initiated in 1961, apparently assuming an existing cryptonym, ZRRIFLE. At the request of the case officer (the same officer providing this information in 1967), a clandestine asset in Europe, QJWIN, was to be used in the project. The case officer understood that QJWIN had been considered in 1960 for use in the assassination of Patrice Lumumba, but that the proposed operation was never carried out because the designated CIA case officer declined the assignment.

The case officer in charge of ZRRIFLE also was involved in an operation to assassinate Fidel Castro, running from early 1962 to mid-1963. However, QJWIN was not used in this effort, reliance being placed instead on a Cuban exile leader. QJWIN was never briefed on the Castro operation, according to the officer handling ZRRIFLE and the Castro operation.

Records do show that QJWIN was dispatched to the Congo in 1960, being there in November and December 1960, prior to the

death of Lumumba at the hands of Congolese. However, there is no evidence to suggest that QJWIN was in any way involved in Lumumba's demise. The case officer who was the source of the information of the contemplated use of QJWIN in such an activity understood that he was never used in this manner. The following information reviews existing knowledge beyond that summarized above.

A 13 October 1960 dispatch from [] transmits notes to headquarters from one of the two officers who subsequently met QJWIN in Luxembourg. The notes list the names of police officials and criminal elements and allude to the possibilities of finding safe-crackers and document-suppliers.

QJWIN was met in Luxembourg on 19 and 20 October 1960 by two Agency officers and was asked if he would undertake a trip to Africa, presumably Dakar. (The appropriate dispatch, dated 2 November 1960, lists only Luxembourg and [] as addressees.) He was not given the true objective of his mission because of its extreme sensitivity and pending a final decision to use him. Instead, he was told that the Soviets were operating in Africa among nationality groups, specifically Corsicans, and he was being asked to spot, assess, and recommend some dependable, quick-witted persons for our use. He agreed to go on the trip. On 2 November QJWIN was met in Frankfurt by an Agency officer, and he accepted an offer to

an individual picked for such a sensitive and dangerous assignment would be burdened with other chores or assignments immediately thereafter.

Lumumba was still alive, albeit under arrest, as of the middle of January 1961, and it seems clear that QJWIN had left the Congo in December 1960. A 19 December cable to Leopoldville authorizes his return to Luxembourg on 21 December and instructs Luxembourg to pay him 1000 dollars for December salary, which is the final payment for his services on this operation. Also, headquarters was working out the details of a Congo assignment. An 11 January 1961 headquarters memorandum, which refers to T/A's dated 21 December 1960, states that the referenced amounts were given to QJWIN by the Chief of Station, Luxembourg. This suggests that QJWIN was in Luxembourg on or before 21 December.

Subsequently, it appears that QJWIN operated in Europe trying to spot and assess individuals whom the Agency could use in safe-cracking operations, in line with one of the principal missions of FI/D. A 24 May 1962 cable to Luxembourg mentions that a decision was made to keep him in Europe and that the Leopoldville assignment had been cancelled. A transfer to Baden-Baden is deemed a good choice. Also, a 24 April 1964 dispatch from Luxembourg, which

headquarters division for whom he worked was concerned, inter alia, with obtaining foreign cipher and code books, and it is reasonable to conclude that QJWIN's primary and exclusive responsibility was to find individuals who could do this kind of job. One of the officers who first met QJWIN in Luxembourg was on a trip overseas to find safe-crackers and document-suppliers. The 14 December 1960 cable mentions keeping him clean and using him in Dakar and possibly Milan, which was specifically mentioned in the 13 October dispatch as offering good possibilities for finding safecrackers and document-suppliers. Further, good tradecraft practices would dictate that the last thing that would keep an individual clean would be involvement in an assassination plot. Although the Chief of FI/D coincidentally was later assigned responsibility for the Castro operation, there is no evidence to suggest that he was privy to assassination plots prior to his briefing in late 1961.

While QJWIN was considered for use in the "executive action capability", there is no information available to suggest that he had ever been approached in this regard, much less used in any of the planning.

the latter on 14 December with an offer of 300 dollars per month to participate in an intelligence net and to be a member of an "execution squad." When QJWIN said that he was not interested, WIROGUE added that there would be bonuses for special jobs. The cable mentioned in paragraph 6 that the Station was concerned with the free wheeling of WIROGUE, his lack of security, his inability to handle finances, and his unwillingness to follow instructions. The Station was willing to keep him on probation, but believed his recall would be the best solution. A suggested alternative was to put him in Stanleyville to try to obtain immediate intelligence on that area.

In an attempt to reconstruct events, Africa Division was apprised of the above and was asked to search its records in an attempt to clarify what WIROGUE was up to in the Congo and his reference to an "execution squad." The research did not clarify the matter to any great extent, although some assumptions can be made on the basis of circumstantial evidence. On 19 September 1960, two members of Africa Division met with WIROGUE to discuss an operational assignment in that division. In connection with the assignment, he was to be trained in demolitions, small arms, and medical immunization. In October 1960, a cable to Leopoldville stated that he was being prepared for a deep cover assignment to arrive Leopoldville late

November. Headquarters noted the intent to use him as a utility agent in order to "(a) organize and conduct a surveillance team; (b) intercept packages; (c) blow up bridges; and (d) execute other assignments requiring positive action. His utilization is not to be restricted to Leopoldville. Indeed, he may be subject to call by other African stations although it is expected for him to be resident in Leopoldville."

WIROGUE arrived in Leopoldville on 2 December 1960. His case officer gave him the following instructions: (a) to build cover possibly by opening a [] shop; and (b) to try to spot persons for a surveillance team, intelligence assets and paramilitary assets.

Shortly after arrival, WIROGUE ran into QJWIN, who later told the station that WIROGUE looked like an intelligence agent. In attempting to recruit QJWIN for his "execution squad", WIROGUE exceeded his instructions to avoid making approaches without checking with Leopoldville Station.

In January 1961, at the request of the Leopoldville Station, WIROGUE was given permission to take flying lessons. By March, he had obtained the position of [] with [] in that capacity he was used by CIA for the purpose of gathering intelligence on []. By April, the [] were trying to use him to obtain arms and

Africa Division believes that WIROGUE was recruited for his Congo assignment because of his third country national background in order to establish a support mechanism in Leopoldville. At the time the Congo was in chaos, we had few assets there, and the likelihood existed that the political situation would degenerate quickly. The Station possibly also wanted to have a latent paramilitary capability. An October 1964 assessment of WIROGUE indicates little flap potential with him since he knew little about the Agency. QJMIN ZRRIFLE

QJWIN

According to statements by a senior CIA officer in 1967, made to the Inspector General, the Agency was instructed to develop a capability to conduct assassinations. Termed an "executive action capability," such a project was initiated in 1961, apparently assuming an existing cryptonym, ZRRIFLE. At the request of the case officer (the same officer providing this information in 1967), a clandestine asset in Europe, QJWIN, was to be used in the project. The case officer understood that QJWIN had been considered in 1960 for use in the assassination of Patrice Lumumba, but that the proposed operation was never carried out because the designated CIA case officer declined the assignment.

The case officer in charge of ZRRIFLE also was involved in an operation to assassinate Fidel Castro, running from early 1962 to mid-1963. However, QJWIN was not used in this effort, reliance being placed instead on a Cuban exile leader. QJWIN was never briefed on the Castro operation, according to the officer handling ZRRIFLE and the Castro operation.

Records do show that QJWIN was dispatched to the Congo in 1960, being there in November and December 1960, prior to the

~~TOP SECRET~~

~~SECRET~~

~~SECRET~~

death of Lumumba at the hands of Congolese. However, there is no evidence to suggest that QJWIN was in any way involved in Lumumba's demise. The case officer who was the source of the information of the contemplated use of QJWIN in such an activity understood that he was never used in this manner. The following information reviews existing knowledge beyond that summarized above.

A 13 October 1960 dispatch from [REDACTED] transmits notes to headquarters from one of the two officers who subsequently met QJWIN in Luxembourg. The notes list the names of police officials and criminal elements and allude to the possibilities of finding safe-crackers and document-suppliers.

QJWIN was met in Luxembourg on 19 and 20 October 1960 by two Agency officers and was asked if he would undertake a trip to Africa, presumably Dakar. (The appropriate dispatch, dated 2 November 1960, lists only [REDACTED] as addressees.) He was not given the true objective of his mission because of its extreme sensitivity and pending a final decision to use him. Instead, he was told that the Soviets were operating in Africa among nationality groups, specifically Corsicans, and he was being asked to spot, assess, and recommend some dependable, quick-witted persons for our use. He agreed to go on the trip. On 2 November QJWIN was met in Frankfurt by an Agency officer, and he accepted an offer to

headquarters division for whom he worked was concerned, inter alia, with obtaining foreign cipher and code books, and it is reasonable to conclude that QJWIN's primary and exclusive responsibility was to find individuals who could do this kind of job. One of the officers who first met QJWIN in Luxembourg was on a trip overseas to find safe-crackers and document-suppliers. The 14 December 1960 cable mentions keeping him clean and using him in Dakar and possibly Milan, which was specifically mentioned in the 13 October dispatch as offering good possibilities for finding safecrackers and document-suppliers. Further, good tradecraft practices would dictate that the last thing that would keep an individual clean would be involvement in an assassination plot. Although the Chief of FI/D coincidentally was later assigned responsibility for the Castro operation, there is no evidence to suggest that he was privy to assassination plots prior to his briefing in late 1961.

While QJWIN was considered for use in the "executive action capability", there is no information available to suggest that he had ever been approached in this regard, much less used in any of the planning.

the latter on 14 December with an offer of 300 dollars per month to participate in an intelligence net and to be a member of an "execution squad." When QJWIN said that he was not interested, WIROGUE added that there would be bonuses for special jobs. The cable mentioned in paragraph 6 that the Station was concerned with the free wheeling of WIROGUE, his lack of security, his inability to handle finances, and his unwillingness to follow instructions. The Station was willing to keep him on probation, but believed his recall would be the best solution. A suggested alternative was to put him in Stanleyville to try to obtain immediate intelligence on that area.

In an attempt to reconstruct events, Africa Division was apprised of the above and was asked to search its records in an attempt to clarify what WIROGUE was up to in the Congo and his reference to an "execution squad." The research did not clarify the matter to any great extent, although some assumptions can be made on the basis of circumstantial evidence. On 19 September 1960, two members of Africa Division met with WIROGUE to discuss an operational assignment in that division. In connection with the assignment, he was to be trained in demolitions, small arms, and medical immunization. In October 1960, a cable to Leopoldville stated that he was being prepared for a deep cover assignment to arrive Leopoldville late

ZRRIFLE

The "executive action capability" that the Agency was asked to develop apparently assumed an existing cryptonym, ZRRIFLE. The four ZRRIFLE files, the only ones we have been able to locate, deal in the main with the activities of a clandestine asset in Europe, QJWIN, who was responsible for spotting and assessing individuals whom the Agency could use as safecrackers to obtain foreign codes and ciphers. According to statements made to the Inspector General in 1967 by a senior CIA officer, who was the Chief of FI/D in 1961 and later became intimately involved in the "executive action capability," he had planned to use QJWIN as part of this capability but never did. There are a few references in the files that might be construed as a connection with this activity, but they are so cryptic that, without additional information it would be difficult to tie them together. Otherwise, the files deal only with assignments for QJWIN in cable traffic and dispatches, administrative and financial records, and name traces/personality sketches.

There is no evidence in the files to refute the statement of QJWIN's case officer that he had never been used as part of the "executive action capability." It seems quite clear from the files that QJWIN was primarily involved in spotting and assessing foreigners for use by the Agency.

The first mention of the ZRRIFLE cryptonym appears in a 24 May 1961 memo from the Chief, FI/D to the Cable Secretariat and states that "two copies of all traffic bearing the ZRRIFLE indicator are to be delivered in a sealed envelope directly to Chief, FI/D." No other distribution was to be made without his specific approval. The last paragraph states that the above was personally approved by the DDP.

The files also contain a handwritten, undated memo stating that "the purpose of Project ZRRIFLE is to spot, develop, and use agent assets for Division D operations....The objective of the project is the procurement of code and cipher materials, and information concerning such materials in accordance with requirements levied on the Clandestine Services, primarily by the National Security Agency....QJWIN is under written contract as a principal agent, with the primary task of spotting agent candidates...."

It appears that the Chief, FI/D decided to conceal the "executive action capability" under the ZRRIFLE cryptonym when he was assigned responsibility for developing this activity. Further, the virtual absence of any written material on this subject suggests that activities dealing with the "executive action capability" were not intended to be committed to writing.

MEMORANDUM FOR THE RECORD

SUBJECT: Discussion with Mr. Raymond Rocca

1. I spoke with Ray Rocca for about an hour during the morning of 16 April 1975 on his review of files to ascertain whether they indicated that anyone did or did not tell the Warren Commission about ZRRIFLE or the Castro operation. I asked Ray when he expected to complete his paper on the subject and whether it would be feasible for me to do my own review of the files.

2. Ray told me that, first of all, he was unfamiliar with the cryptonyms, ZRRIFLE and MONGOOSE, until a few weeks ago when they were mentioned to him by Eloise Page. Further, there was no mention of either of them in the files with which he was familiar. He does not plan to produce a paper on what he finds in the files, but he is scheduled to brief David Belin orally on his findings next Tuesday morning.

3. Ray had no objection to my reviewing the files, but he did point out that the files were voluminous and that the exercise would be fruitless. A machine print-out of the titles involved in the files listed 1,418 individual items and, needless to say, many of the items contained numerous pages. The items are located in some 60 separate volumes. These represent Lee Harvey Oswald's 201 files, Warren Commission matters, and related documents.

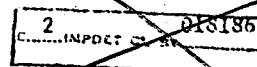

4. David Belin and one of his staff assistants reviewed the machine print-out and asked for and were given specific items to read on their own. Subsequently, they asked Ray to read these same items with a view to answering the following three questions:

a. Did Castro have any knowledge or information about ZRRIFLE;

b. Did Oswald have any Cuban contacts or relationships that are not a matter of record; and

c. Did anyone tell the Warren Commission about ZRRIFLE?

Ray is in the process of reading the appropriate items and expects to be ready to brief Belin next Tuesday morning. He will not produce a paper unless he is asked to.

THE WHITE

8. J.C. King. He was Chief of the WH Division and was listed in the IG report as being witting of the plan. In 1967 he denied knowledge of it.

9. Justin O'Donnell. Mentioned on page 38 of the report, O'Donnell was to have been in charge of the assassination of Patrice Lamumba by agent QJWIN; however, he surveyed the scene and decided he wanted no part in an assassination attempt.

10. [REDACTED] He was Harvey's deputy in 1962 and was listed on page 55 as having been witting of Phase II.

11. Lawrence Houston. First mentioned on page 62 of the report. He was requested by Colonel Edwards to call on an Assistant Attorney General to explain the bugging incident in Las Vegas. It appears from the IG report that Houston was witting of aspects of Phase I which led up to the wiretapping incident. On May 7, 1962, Houston, along with Sheffield Edwards, briefed Attorney General Kennedy on the Phase I operation.

12. General Carter. Carter was DDCI under John McCone. In April, 1962, he was briefed by Houston on Phase I. He said he "understood" the situation and "in due time might brief the Director, Mr. McCone." However, the 1967 report states, "There is no indication that General Carter was further briefed on the full details of the assassination plot against Castro."

13. Robert A. Maheu. Maheu, of course, was the private investigator who served as the Agency's contact with Roselli during Phase I.

14. Edward P. Morgan. He was Maheu's attorney in 1966 when the CIA intervened with the Long committee. He excused Maheu as a witness in its investigation of invasions of privacy. According to the IG report, Maheu indicated that he might brief his attorney Morgan fully about his past activities so that Morgan would be able to decide how best to represent him.

15. Desmond Fitzgerald. Fitzgerald became head of the Cuban task force in January, 1963. Mentioned on page 75 of the report, Fitzgerald said that the skin diving suit plan began while he was head of the Cuban task force.

16. Samuel Halpern. The IG report, page 75, states that Halpern said the skin diving suit plan had begun under William Harvey and that he, Halpern, had briefed Fitzgerald on it.

TECHNICAL INTERROGATION REPORT

SUBJECT: QJWIN

IRD #34,944

APPROVED FOR RELEASE 1993
CIA HISTORICAL REVIEW PROGRAM

1. IDENTIFYING DATA:

Subject of this case is a 44-year-old Luxembourg citizen who has been utilized by this Organization since the end of 1960 in several sensitive operations.

2. PROCEDURE:

On 31 March, 1961, at the request of the Case Officer, [REDACTED], Subject was technically interrogated in the French language at a safe site in Frankfurt, Germany. The purpose of the interrogation was to aid in determining whether Subject:

- (a) is presently working for any other intelligence service;
- (b) has told IDENTITY B, or anyone else, about the operations in which he has been engaged for [REDACTED] Intelligence Service;
- (c) has honestly reported about the work that he has done for [REDACTED] Intelligence.

3. DETAILS:

The following information was developed during the interview and the technical interrogation:

Subject stated that in circa 1953-1954 he was approached by IDENTITY C, a Belgian citizen, whom he had known since 1947, to obtain a sample of a new model Belgian gun for the benefit of an Eastern country. Subject reported this incident to IDENTITY D, who referred him to IDENTITY B and IDENTITY E, a [REDACTED] official at Bitburg Air Base.

Subject advised that upon his return from Leopoldville, he visited IDENTITY B, but did not discuss his work with the [REDACTED]. Their conversation concerned the situation in the Congo, in general. [REDACTED] in Leopoldville. Subject met a [REDACTED] IDENTITY F, who passed himself off as an Austrian, flashed a passport, and attempted to recruit Subject to work for an undetermined Western intelligence service, hinting that he was working for the [REDACTED]. Subject reported that to his local Case Officer.

Subject stated that his wife is acquainted with IDENTITY B and is aware that he has a clandestine relationship with him. She is also aware that he occasionally has a clandestine relationship with the [REDACTED] without knowing the exact nature of it. Subject describes his wife as extremely discreet in these matters.

While he was in Leopoldville, a sum of money was deposited to his wife's account at the Banque Internationale de Luxembourg. The deposit was made, ostensibly, by the [REDACTED] Embassy in Luxembourg. However, Subject's wife did not question this but it is obvious to her that he is employed by some [REDACTED] Agency.

Subject stated that he suffers from low blood pressure and a minor heart ailment which has been diagnosed as caused by "nerves" and not as an organic condition. He occasionally takes CALMIDAL, a Belgian patent medicine containing barbiturates. He was unable to obtain it in Leopoldville and consulted an unidentified medical doctor there, who gave him a similar prescription which, however, he did not use.

During the technical interrogation, the following questions were asked during the technical interrogation:

3. With the exception of those which you have mentioned, have you collaborated with any other intelligence services?

Answer: No.

Subject stated that he had collaborated with the Luxembourg, Belgian and W. German Intelligence Services and the French Mors before his current association with the [REDACTED]. His collaboration with the Belgian Intelligence Service was limited to the gun incident and the [REDACTED]

Project ZRR:LE

1. Identification: The purpose of Project ZRR:LE is to spot, envelop, and use ~~foreign~~ agent assets for Division D ~~and~~ operations. Agents will be spotted in several areas, including the United States, but with ~~some~~ probes for operational security reasons will probably not be used in their countries of residence. Present development activity is being conducted in the WE and EE areas, but it is anticipated that this will be extended to other Division areas. The project will be operated against third-country ~~ambassadors~~ and personnel.

2. Objective: The objective of this project is the procurement of ~~of~~ code and cipher materials, ^{and information concerning such materials,} in accordance with requirements derived from ~~our~~ Classification Service, primarily by the National Security Agency. Since these requirements are subject to frequent revision, no listing of targets would be useful for the execution of this project. Specific operations will be mounted on the basis of need and opportunity. The project will be conducted by Division D with assistance from other divisions and stations as needed.

3. Background: In response to the increasing requirements for the operational procurement of foreign code and cipher materials, Division D in 1962 began the spotting of agent assets as a developmental activity. During the same

period requirements from NSA became more refined and in many respects more sensitive. Because most stations are not equipped to conduct this type of operation and because of the desirability of completely centralized control over this entire effort it was determined that Division 3, which is in closest touch with NSA on procurement requirements, could best conduct the activity. The ~~first~~ spotting activity has now advanced far enough to justify removing from the 114 category.

4. Operational assets:

(1) Personnel: ~~1~~ JFW is under written contract as a principal agent, with the primary task of spotting agent candidates. G. J. For a period of a year and a half he was contacted ~~in~~ & sporadically, by I. S. Incumbency, in behalf of the Bureau of Narcotics. Files of this Bureau reflect an excellent performance by JFW. 925, 14 February 1964

1. QUINN HAS BEEN TERMINATED. OLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELLING AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 25 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS OWN YEAR. QUINN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. DISCUSSING HIS FUTURE, SUGGESTED, NOW THAT HE HAS RECEIVED THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QUINN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION WAS GETTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, 1962 CI 102- GEMER 196) QUINN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH THIS REQUIREMENT WAS CONFIRMED BY 17001 OF 20 MAY 1962 AND DURING DISCUSSIONS IN DISCUSSING IN JULY 1962. MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH MADE AN ISSUE OF THIS WITH HIM. AUGUST 1962. QUINN NEVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT. A QUESTION. QUINN HAS STRONG DOUBTS. QUINN'S PLANNING HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNQUESTIONED PART OF HIS CHARACTER. THIS DOES NOT IMPROVE HIS WREATH. THERE IS NOTHING TO THE DATE THAT HE WAS EVER IN A KIDNAP RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. QUINN'S TRUE NAME IS KNOWN TO QUINN BY TRUE NAME. QUINN'S NAME "D. EARE" WITH HIM, BUT IT IS ASSUMED THAT HE KNOWS QUINN'S TRUE NAME. QUINN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE, BUT THIS PHONE IS BEING DISMANTLED IN OCTOBER OF THIS YEAR. QUINN'S ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the Station or by the Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station Luxembourg and [redacted] be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the [redacted] and [redacted] stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which Fletcher M. KNIGHT is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

RE: ZRRIFLE

1. Per our discussion of 2 July 1962, I expect that we shall proceed to transfer QJWIN to Baden-Baden per the proposal in 1463 dated 2 February 1962. LUXE/0189 dated 19 June 1962 stated that COS would have the full details of the capital outlay required by 23 June; however, the information has not been received as of 3 July. The last cable to the Station, DIR 18391 told COS to contact you directly on his arrival on 16 July.

2. With regard to candidates spotted by QJWIN, the two whom he spotted in Italy a year and a quarter ago can probably be used if needed, if we can accept the assessments of them by the contract agent.

His assessment is contained in A 27542 dated 10 May 1961. The names of the two French candidates are contained in 1426 dated 15 December 1961. No action has been taken on these names regarding tracing or anything else. My handwritten notes attached to that dispatch contain fuller descriptions of the two people than appear in the dispatch.

3. The other spotting effort that can be made is through (TN) in Rome. was well briefed on the qualifications desired and the security precautions to be observed in the spotting activity. has a copy of the qualifications and restrictions in his safe; however, if is told to proceed with his contact in Florence, I suggest that he be re-briefed in detail.

DISPATCH		DISPATCH SYMBOL AND NO 1163
TO Chief, /D	HEADQUARTERS FILE NO.	
FROM COS, Luxembourg	DATE 2 February 1962	
SUBJECT JWILL, <u>ATTN: FILE</u> future cover and move to Germany	RE: "43-3" - (CHECK "X" ONE)	
	<input type="checkbox"/> MARKED FOR INDEXING	
	<input checked="" type="checkbox"/> NO INDEXING REQUIRED	
ACTION REQUIRED See para 4	<input type="checkbox"/> INDEXING CAN BE JUDGED BY QUALIFIED HQ DESK ONLY	

REFERENCE: 1426

1. During the month of January, JWILL was given the job of investigating cover job possibilities in Germany. On 30 January, he reported that he had found none that would meet the requirements, i.e. furnish legitimate employment while allowing sufficient independence of movement. The job of traveling sales representative is the only category JWILL could propose. However, to be effective for long-term cover, JWILL would have to work sufficiently close with a selected company that his activity and income would be controlled. Securing the references which would be required for a serious job of this type also presents a problem. Without known assistance, we doubt that JWILL could secure more than the nominal cover arrangement as representant which is used by the majority of Europeans without legitimate employment.

2. As we understand the requirements for JWILL's cover, they would be best filled if he were self-employed in an acceptable profession. We have discussed several possibilities with JWILL, and discarded them - including the raising of chinchillas. On 30 January, JWILL came up with the suggestion that he could buy and sell paintings. To the extent possible with our limited background in the subject, we described him on his knowledge and experience in this field. He professed a long personal interest in the art and, from what we could judge, he has a sufficiently well rounded knowledge of styles and some of the better known painters to permit him to be at home in this milieu. From the commercial standpoint, he does not have to be an expert as his market would be primarily middle-class German and his product low-priced French originals destined for decoration rather than art appreciation. JWILL is confident that he could profitably work at such a business and could establish a legitimate cover from it which would withstand official scrutiny. We directed him to investigate the commercial aspects including the potential market, brokers and generally all areas of current commercial activity in this field. If JWILL remains confident after his closer investigation, this business would also have the advantage of offering cover for his move to Germany. Theoretically, it would not be unreasonable for someone to pursue the idea that the combination of West German prosperity, their respect for French artistic abilities and the experience of European amalgamation presents a potential business opportunity.

3. JWILL has a personal preference that he locate in a German city which has French schooling available for his children. At present, Baden Baden is being considered, but we asked JWILL to investigate alternatives.

4. We are pushing the above cover because it has good potential and we know of no other alternative. We have given JWILL 1 May 1962 as a tentative target date for his move to Germany. Headquarters comments, by return pouch, are requested on the following points:

- a. Proposed cover as art dealer, including how much capital, if any, HQWILL would supply as an original one-time investment for JWILL.
- b. Baden Baden as residence in Germany, and if HQWILL intends to reimburse for moving expenses.
- c. Projected operational planning for JWILL.

accountings for travel and operational funds, we do not wish to hold him to a rigid accounting for every cent (for one reason, this would entail his making detailed financial notes as he moves about, in itself a potential breach of security). It will suffice if he provides you with whatever supporting documents are normally available to him (such as hotel bills), if he gives you a general accounting for the use of funds, and if you are satisfied that the funds were used properly. Our experiences with him so far have provided no indications of misuse of funds.

4. During the discussion with QJWIN on 2 May, he raised two problems in the event of postponement of his move to Leopoldville:

a. When it is decided to move him, he would appreciate our timing the move, if possible, to enable his children to complete their then current school term in Luxembourg and to register for the next following term in Leopoldville. Please inform him that this desire will be given the fullest possible consideration.

b. If he is to remain in Europe for any length of time at our behest, as he now will per reference, he should move out of Luxembourg with his family. As he correctly pointed out, he has no cover job, now has a good salary, is known to the Gendarmerie in Luxembourg, and he foresees difficulty in explaining his work, source of income, declaration of income tax, etc. We agree with his viewpoint, and this problem is under active consideration. He cannot, of course, move to Belgium with a sentence hanging over his head there. We are reluctant to move him to France since he was once convicted there, and application for a residence permit would result in a police files check with possible resultant and undesirable police attention to him. Furthermore, since a good deal of his search activity has taken place and will take place in France, we far prefer to have him reside elsewhere. Switzerland might be a possibility (except for tight police controls), but Germany appears to be a better possibility. If QJWIN does move to Leopoldville at the end of this year, he can probably survive the period in Luxembourg. If the move is to be postponed beyond the end of this year - and we shall let you know as soon as this is decided - he should be relocated. In the meantime, please discuss the above possibilities with him and let us know his ideas on residence other than Luxembourg and on possible cover for his residence elsewhere.

5. During April 1961, QJWIN spotted some candidates in France. Two or three of these will have to be revisited by him for a second look at them, and to obtain data which he was not able to obtain during the first contact without arousing suspicion on their part. We shall inform you and send pertinent details (by dispatch if time permits) when we desire that this be done. In the meantime, please inform QJWIN that the need for his recontacting these people without undue delay is recognized and is on the front burner.

6. With regard to funding QJWIN, it is requested that he be given his pay, travel money, operational money, and any other necessary funds in cash during personal contacts only. (We were disturbed to note in the report of his LCFLUTTER examination his statement that money was deposited to the Banque Internationale for him by the American Embassy. The deposit was pursuant to a request from Leopoldville, but the method of deposit was counter to the maximum security we are trying to apply to our use of QJWIN.).

7. It is essential that from now on all traffic be handled as follows:

a. Cables to be slugged ZRRIFLE only. (QJWIN is still the cryptonym for the person and should be used in referring to him, but the slugging must be as stated above to insure maximum security.).

b. Dispatches to Headquarters are to be sent to D only, in the original and one copy only, stamped TOP SECRET. The dispatches are to be sent in sealed envelopes marked TOP SECRET, ZRRIFLE and further marked as follows:

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the [] or by the [] or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present [] and [] be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the [] be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which [] is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

Subject: SSC Request to Breckinridge During his 2 June Appearance, for Files and Materials relating to the 1967 IG Report on Assassinations, Including Tab A after Page 77 of the Report.

Response:

A search has been made for the files of the Chief, WH Division in 1967 (Desmond Fitzgerald), and those of Col. J. C. King. At that time Mr. Fitzgerald was alive; he has since died and his files do not exist as an integral collection, although portions may exist in different holdings in WH Division. Col. King had retired at the time of the IG inquiry, but he was still working under a special contract and was at the Headquarters Building at Langley where he had retained some personal files; his files are no longer identifiable.

Other materials, reviewed by the Inspectors in 1967 were limited in nature, some of which have been made available to SSC Staff members in envelopes in which they have been held since 1967. The SSC Staff members have had access to the project files of QJWIN, WIROGUE, ZRRIFLE and [] They have not yet requested access to the AMLASH files, which are being held. ~~SECRET~~
QJWIN

According to statements by a senior CIA officer in 1967, made to the Inspector General, the Agency was instructed to develop a capability to conduct assassinations. Termed an "executive action capability," such a project was initiated in 1961, apparently assuming an existing cryptonym, ZRRIFLE. At the request of the case officer (the same officer providing this information in 1967), a clandestine asset in Europe, QJWIN, was to be used in the project. The case officer understood that QJWIN had been considered in 1960 for use in the assassination of Patrice Lumumba, but that the proposed operation was never carried out because the designated CIA case officer declined the assignment.

The case officer in charge of ZRRIFLE also was involved in an operation to assassinate Fidel Castro, running from early 1962 to mid-1963. However, QJWIN was not used in this effort, reliance being placed instead on a Cuban exile leader. QJWIN was never briefed on the Castro operation, according to the officer handling ZRRIFLE and the Castro operation.

Records do show that QJWIN was dispatched to the Congo in 1960, being there in November and December 1960, prior to the

death of Lumumba at the hands of Congolese. However, there is no evidence to suggest that QJWIN was in any way involved in Lumumba's demise. The case officer who was the source of the information of the contemplated use of QJWIN in such an activity understood that he was never used in this manner. The following information reviews existing knowledge beyond that summarized above.

A 13 October 1960 dispatch [] transmits notes to headquarters from one of the two officers who subsequently met QJWIN [] The notes list the names of police officials and criminal elements and allude to the possibilities of finding [] suppliers.

QJWIN was met in [] on 19 and 20 October 1960 by two Agency officers and was asked if he would undertake a trip to Africa, [] (The appropriate dispatch, dated 2 November 1960, lists only [] and [] as addressees.) He was not given the true objective of his mission because of its extreme sensitivity and pending a final decision to use him. Instead, he was told that the Soviets were operating in Africa among nationality groups, [] and he was being asked to spot, assess, and recommend some dependable, quick-witted persons for our use. He agreed to go on the trip. On 2 November QJWIN was met in [] by an Agency officer, and he accepted an offer to

an individual picked for such a sensitive and dangerous assignment would be burdened with other chores or assignments immediately thereafter.

Lumumba was still alive, albeit under arrest, as of the middle of January 1961, and it seems clear that QJWIN had left the Congo in December 1960. A 19 December cable to Leopoldville authorizes his return to [] on 21 December and instructs [] to pay him 1000 dollars for December salary, which is the final payment for his services on this operation. Also, headquarters was working out the details of a Congo assignment. An 11 January 1961 headquarters memorandum, which refers to T/A's dated 21 December 1960, states that the referenced amounts were given to QJWIN by the

headquarters division for whom he worked was concerned, inter

alia, with [] and it is reasonable

to conclude that QJWIN's primary and exclusive responsibility was to

find individuals who could do this kind of job. One of the officers who

first met QJWIN in [] was on a trip overseas to find [

]suppliers. The 14 December 1960 cable

mentions keeping him clean and using him in [] and possibly []

which was specifically mentioned in the 13 October dispatch as offering

good possibilities for finding [] suppliers.

Further, good tradecraft practices would dictate that the last thing

that would keep an individual clean would be involvement in an

assassination plot. Although the Chief [] was

later assigned responsibility for the Castro operation, there is

no evidence to suggest that he was privy to assassination plots prior

to his briefing in late 1961.

While QJWIN was considered for use in the "executive action capability", there is no information available to suggest that he had ever been approached in this regard, much less used in any of the planning.

the latter on 14 December with an offer of 300 dollars per month to participate in an intelligence net and to be a member of an "execution squad." When QJWIN said that he was not interested, WIROGUE added that there would be bonuses for special jobs. The cable mentioned in paragraph 6 that the Station was concerned with the free wheeling of WIROGUE, his lack of security, his inability to handle finances, and his unwillingness to follow instructions. The Station was willing to keep him on probation, but believed his recall would be the best solution. A suggested alternative was to put him in [] to try to obtain immediate intelligence on that area.

In an attempt to reconstruct events, Africa Division was apprised of the above and was asked to search its records in an attempt to clarify what WIROGUE was up to in the Congo and his reference to an "execution squad." The research did not clarify the matter to any great extent, although some assumptions can be made on the basis of circumstantial evidence. On 19 September 1960, two members of Africa Division met with WIROGUE to discuss an operational assignment in that division. In connection with the assignment, he was to be trained in demolitions, small arms, and medical immunization. In October 1960, a cable to Leopoldville stated that he was being prepared for a deep cover assignment to arrive Leopoldville late

contract was terminated in September 1961.

Africa Division believes that WIROGUE was recruited for his Congo assignment because of his third country national background in order to establish a support mechanism in Leopoldville. At the time the Congo was in chaos, we had few assets there, and the likelihood existed that the political situation would degenerate quickly. The Station possibly also wanted to have a latent paramilitary capability. An October 1964 assessment of WIROGUE indicates little flap potential with him since he knew little about the Agency. He spent most of his time trying to develop contacts and was not directly involved in any particular operation.

question, once completeness of the file was verified, documents filed prior to 22 November 1963 would have had to be determined by manual review of documents in the DDP file, and in files of other Agency components, checking the date of origin and approximate time of filing. Presumably this is what was done, as such a list was prepared and submitted to the Warren Commission. Use of the 20 February 1964 note in Friday's hearings, in the manner Mr. Goldsmith did, suggests that some unfamiliarity with machine applications in indexing, and maintenance of files, has confused his investigators' understanding of the explanations given them.

The handwritten notes on the ZRRIFLE file present yet another interesting sample of analysis, understanding and inference. The ZRRIFLE file, and the QJWIN file, should speak for themselves. It was clear that Mr. Harvey (the officer in charge of the matter) and an associate, initially contemplated trying to establish false files. It is equally clear to anyone willing to pursue the question beyond its asking, that they did not do so. Why he did not cannot be recaptured factually today as Mr. Harvey is dead, but that he did not is clear. Perhaps he tried and simply could not. In any event, it was not necessary to do so anyway, if limited records were desired to enhance the security of the operation.

First, Mr. Harvey had authority to report expenditures by what is termed "certification." You have the documents that make this clear. It simply means that Mr. Harvey did not need vouchers or records to support his claim for reimbursement of expenditures. He need only certify that he spent the money. Further, your people (as well as you personally) have read the 1967 report by the Inspector General which makes it clear that the decision was taken to keep only limited records. What Mr. Harvey did was first reconstructed by the CIA Inspector General in 1967 by interviews, with Mr. Harvey speaking from cryptic notes. The Church Committee had similar access to Mr. Harvey in 1975.

The point is, that whatever early consideration may have been given to how to approach the problem, there were no fake files. The files were easily located in 1967 during the Inspector General's inquiry, and again for the Church Committee. Your people also have reviewed them. Mr. Goldsmith has focussed on early considerations about how to try to run the operation, omitting the fact that it was not done that way. Again, he

According to statements by a senior CIA officer in 1967, made to the Inspector General, the Agency was instructed to develop a capability to conduct assassinations. Termed an "executive action capability," such a project was initiated in 1961, apparently assuming an existing cryptonym, ZRRIFLE. At the request of the case officer (the same officer providing this information in 1967), a clandestine asset in Europe, QJWIN, was to be used in the project. The case officer understood that QJWIN had been considered in 1960 for use in the assassination of Patrice Lumumba, but that the proposed operation was never carried out because the designated CIA case officer declined the assignment.

The case officer in charge of ZRRIFLE also was involved in an operation to assassinate Fidel Castro, running from early 1962 to mid-1963. However, QJWIN was not used in this effort, reliance being placed instead on a Cuban exile leader. QJWIN was never briefed on the Castro operation, according to the officer handling ZRRIFLE and the Castro operation.

Records do show that QJWIN was dispatched to the Congo in 1960, being there in November and December 1960, prior to the

proceed to Leopoldville. (Presumably the idea for sending him there originated at headquarters because someone must have considered him qualified to handle a potential operation there.) The precise mission was not conveyed to QJWIN, and he was only informed that the mission might involve a large element of personal risk. We do not know and at present are unable to determine what the assignment was. Subsequent cable traffic discusses arrangements for QJWIN to go first to Leopoldville and then to Dakar.

On 8 December QJWIN was in Leopoldville where he cultivated a close personal relationship with a Yugoslav Air Force pilot. There follow suggestions in cable traffic on what approach QJWIN should use to recruit him. However, a special channel FI/D cable of 14 December rates this target as marginal when considered against the framework of plans for QJWIN and instructs him to desist if action has not already been taken. The first paragraph of this cable states that we "would like restrict QJWIN to activity directly pertinent his mission Leopoldville or forthcoming mission Dakar and possibly elsewhere (e.g., Milan) for FI/D purposes. He our only asset of this type and we wish keep him clean of any operational involvement other than that originally planned for him." This cable would tend to rule out involvement in an assassination plot, since it is highly unlikely that

an individual picked for such a sensitive and dangerous assignment would be burdened with other chores or assignments immediately thereafter.

Lumumba was still alive, albeit under arrest, as of the middle of January 1961, and it seems clear that QJWIN had left the Congo in December 1960. A 19 December cable to Leopoldville authorizes his return to Luxembourg on 21 December and instructs Luxembourg to pay him 1000 dollars for December salary, which is the final payment for his services on this operation. Also, headquarters was working out the details of a Congo assignment. An 11 January 1961 headquarters memorandum, which refers to T/A's dated 21 December 1960, states that the referenced amounts were given to QJWIN by the Chief of Station, Luxembourg. This suggests that QJWIN was in Luxembourg on or before 21 December.

Subsequently, it appears that QJWIN operated in Europe trying to spot and assess individuals whom the Agency could use in safe-cracking operations, in line with one of the principal missions of FI/D. A 24 May 1962 cable to Luxembourg mentions that a decision was made to keep him in Europe and that the Leopoldville assignment had been cancelled. A transfer to Baden-Baden is deemed a good choice. Also, a 24 April 1964 dispatch from Luxembourg, which

headquarters division for whom he worked was concerned, inter alia, with obtaining foreign cipher and code books, and it is reasonable to conclude that QJWIN's primary and exclusive responsibility was to find individuals who could do this kind of job. One of the officers who first met QJWIN in Luxembourg was on a trip overseas to find safe-crackers and document-suppliers. The 14 December 1960 cable mentions keeping him clean and using him in Dakar and possibly Milan, which was specifically mentioned in the 13 October dispatch as offering good possibilities for finding safecrackers and document-suppliers. Further, good tradecraft practices would dictate that the last thing that would keep an individual clean would be involvement in an assassination plot. Although the Chief of FI/D coincidentally was later assigned responsibility for the Castro operation, there is no evidence to suggest that he was privy to assassination plots prior to his briefing in late 1961.

While QJWIN was considered for use in the "executive action capability", there is no information available to suggest that he had ever been approached in this regard, much less used in any of the planning.

the latter on 14 December with an offer of 300 dollars per month to participate in an intelligence net and to be a member of an "execution squad." When QJWIN said that he was not interested, WIROGUE added that there would be bonuses for special jobs. The cable mentioned in paragraph 6 that the Station was concerned with the free wheeling of WIROGUE, his lack of security, his inability to handle finances, and his unwillingness to follow instructions. The Station was willing to keep him on probation, but believed his recall would be the best solution. A suggested alternative was to put him in Stanleyville to try to obtain immediate intelligence on that area.

In an attempt to reconstruct events, Africa Division was apprised of the above and was asked to search its records in an attempt to clarify what WIROGUE was up to in the Congo and his reference to an "execution squad." The research did not clarify the matter to any great extent, although some assumptions can be made on the basis of circumstantial evidence. On 19 September 1960, two members of Africa Division met with WIROGUE to discuss an operational assignment in that division. In connection with the assignment, he was to be trained in demolitions, small arms, and medical immunization. In October 1960, a cable to Leopoldville stated that he was being prepared for a deep cover assignment to arrive Leopoldville late

November. Headquarters noted the intent to use him as a utility agent in order to "(a) organize and conduct a surveillance team; (b) intercept packages; (c) blow up bridges; and (d) execute other assignments requiring positive action. His utilization is not to be restricted to Leopoldville. Indeed, he may be subject to call by other African stations although it is expected for him to be resident in Leopoldville."

WIROGUE arrived in Leopoldville on 2 December 1960. His case officer gave him the following instructions: (a) to build cover possibly by opening a [08] shop; and (b) to try to spot persons for a surveillance team, intelligence assets and paramilitary assets.

Shortly after arrival, WIROGUE ran into QJWIN, who later told the station that WIROGUE looked like an intelligence agent. In attempting to recruit QJWIN for his "execution squad", WIROGUE exceeded his instructions to avoid making approaches without checking with Leopoldville Station.

In January 1961, at the request of the Leopoldville Station, WIROGUE was given permission to take flying lessons. death of Lumumba at the hands of Congolese. However, there is no evidence to suggest that QJWIN was in any way involved in Lumumba's demise. The case officer who was the source of the information of the contemplated use of QJWIN in such an activity understood that he was never used in this manner. The following information reviews existing knowledge beyond that summarized above.

A 13 October 1960 dispatch from [10] transmits notes to headquarters from one of the two officers who subsequently met QJWIN in Luxembourg. The notes list the names of police officials and criminal elements and allude to the possibilities of finding safe-crackers and document-suppliers.

QJWIN was met in Luxembourg on 19 and 20 October 1960 by two Agency officers and was asked if he would undertake a trip to Africa, presumably Dakar. (The appropriate dispatch, dated 2 November 1960, lists only Luxembourg and [10] as addressees.) He was not given the true objective of his mission because of its extreme sensitivity and pending a final decision to use him. Instead, he was told that the Soviets were operating in Africa among nationality groups, specifically Corsicans, and he was being asked to spot, assess, and recommend some dependable, quick-witted persons for our use. He agreed to go on the trip. On 2 November QJWIN was met in Frankfurt by an Agency officer, and he accepted an offer to

Africa Division believes that WIROGUE was recruited for his Congo assignment because of his third country national background in order to establish a support mechanism in Leopoldville. At the time the Congo was in chaos, we had few assets there, and the likelihood existed that the political situation would degenerate quickly. The Station possibly also wanted to have a latent paramilitary capability. An October 1964 assessment of WIROGUE indicates little flap potential with him since he knew little about the Agency. He spent most of his time trying to develop contacts and was not directly involved in any particular operation.

1. QJWIN HAS BEEN TERMINATED. [] TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, [] SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, [] OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING [] DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH [] MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. [] HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER; THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. [] IS KNOWN TO QJWIN BY TRUE NAME. [] USED THE NAME "P. BERRE" WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED [] TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE. [] IS BEING DISMANTELED IN OCTOBER OF THIS YEAR. [] ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

CIA HISTORICAL REVIEW PROGRAM

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present under-cover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the [] Station or by the [] Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station [] and [] be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the [] and [] stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which [] is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and [] except perhaps for minor accountings, be considered as a part of this project.

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in [redacted] where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the [redacted] or by the [redacted] or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of [redacted] and [redacted] be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the [redacted] be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which [redacted] is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

QJWIN

According to statements by a senior CIA officer in 1967, made to the Inspector General, the Agency was instructed to develop a capability to conduct assassinations. Termed an "executive action capability," such a project was initiated in 1961, apparently assuming an existing cryptonym, ZRRIFLE. At the request of the case officer (the same officer providing this information in 1967), a clandestine asset in Europe, QJWIN, was to be used in the project. The case officer understood that QJWIN had been considered in 1960 for use in the assassination of Patrice Lumumba, but that the proposed operation was never carried out because the designated CIA case officer declined the assignment.

The case officer in charge of ZRRIFLE also was involved in an operation to assassinate Fidel Castro, running from early 1962 to mid-1963. However, QJWIN was not used in this effort, reliance being placed instead on a Cuban exile leader. QJWIN was never briefed on the Castro operation, according to the officer handling ZRRIFLE and the Castro operation.

Records do show that QJWIN was dispatched to the Congo in 1960, being there in November and December 1960, prior to the

death of Lumumba at the hands of Congolese. However, there is no evidence to suggest that QJWIN was in any way involved in Lumumba's demise. The case officer who was the source of the information of the contemplated use of QJWIN in such an activity understood that he was never used in this manner. The following information reviews existing knowledge beyond that summarized above.

A 13 October 1960 dispatch from [] transmits notes to headquarters from one of the two officers who subsequently met QJWIN [] The notes list the names of police officials and criminal elements and allude to the possibilities of finding safe-crackers and document-suppliers.

QJWIN was met [] on 19 and 20 October 1960 by two Agency officers and was asked if he would undertake a trip to Africa, [] (The appropriate dispatch, dated 2 November 1960, [] He was not given the true objective of his mission because of its extreme sensitivity and pending a final decision to use him. Instead, he was told that the Soviets were operating in Africa among nationality groups, specifically Corsicans, and he was being asked to spot, assess, and recommend some dependable, quick-witted persons for our use. He agreed to go on the trip. On 2 November QJWIN was met [] by an Agency officer, and he accepted an offer to

an individual picked for such a sensitive and dangerous assignment would be burdened with other chores or assignments immediately thereafter.

Lumumba was still alive, albeit under arrest, as of the middle of January 1961, and it seems clear that QJWIN had left the Congo in December 1960. A 19 December cable to Leopoldville authorizes his return

Agency officers who were handling QJWIN[] were almost certainly unaware of the fact that he was being considered as an asset by the senior Agency official who had begun to become active in February 1962 in the assassination plot against Castro. An undated (EYES ONLY) memorandum from the Deputy Director (Plans) refers to a 19 February 1962 memorandum and authorizes the retention of the services of QJWIN in activities which we have identified as coincidental with the assassination plot against Castro. The date of the reference memorandum coincides with the time that the senior Agency official became actively involved in this enterprise. A memorandum of 27 June 1963 dealing with the further handling of QJWIN mentions that this enterprise has been terminated, except for one precautionary "life line."

In summary, it is almost certain that QJWIN had nothing at all to do with the assassination of Lumumba, even though the contents and language of available files are often cryptic and imprecise. If he had been, it is highly unlikely that the number of Agency officers handling and contemplating assignments for him would have been so large. The

headquarters division for whom he worked was concerned, inter alia, with obtaining foreign cipher and code books, and it is reasonable to conclude that QJWIN's primary and exclusive responsibility was to find individuals who could do this kind of job. [

[which was specifically mentioned in the 13 October dispatch as offering good possibilities for finding safecrackers and document-suppliers. Further, good tradecraft practices would dictate that the last thing that would keep an individual clean would be involvement in an assassination plot. Although the Chief of FI/D coincidentally was later assigned responsibility for the Castro operation, there is no evidence to suggest that he was privy to assassination plots prior to his briefing in late 1961.

While QJWIN was considered for use in the "executive action capability", there is no information available to suggest that he had ever been approached in this regard, much less used in any of the planning.

ZRRIFLE

The "executive action capability" that the Agency was asked to develop apparently assumed an existing cryptonym, ZRRIFLE. The four ZRRIFLE files, the only ones we have been able to locate, deal in the main with the activities of a clandestine asset in Europe, QJWIN, who was responsible for spotting and assessing individuals whom the Agency could use as safecrackers to obtain foreign codes and ciphers. According to statements made to the Inspector General in 1967 by a senior CIA officer, who was the Chief of FI/D in 1961 and later became intimately involved in the "executive action capability," he had planned to use QJWIN as part of this capability but never did. There are a few references in the files that might be construed as a connection with this activity, but they are so cryptic that, without additional information it would be difficult to tie them together. Otherwise, the files deal only with assignments for QJWIN in cable traffic and dispatches, administrative and financial records, and name traces/personality sketches.

There is no evidence in the files to refute the statement of QJWIN's case officer that he had never been used as part of the "executive action capability." It seems quite clear from the files that QJWIN was primarily involved in spotting and assessing foreigners for use by the Agency.

The first mention of the ZRRIFLE cryptonym appears in a 24 May 1961 memo from the Chief, FI/D to the Cable Secretariat and states that "two copies of all traffic bearing the ZRRIFLE indicator are to be delivered in a sealed envelope directly to Chief, FI/D." No other distribution was to be made without his specific approval. The last paragraph states that the above was personally approved by the DDP.

The files also contain a handwritten, undated memo stating that "the purpose of Project ZRRIFLE is to spot, develop, and use agent assets for Division D operations....The objective of the project is the procurement of code and cipher materials, and information concerning such materials in accordance with requirements levied on the Clandestine Services, primarily by the National Security Agency....QJWIN is under written contract as a principal agent, with the primary task of spotting agent candidates...."

It appears that the Chief, FI/D decided to conceal the "executive action capability" under the ZRRIFLE cryptonym when he was assigned responsibility for developing this activity. Further, the virtual absence of any written material on this subject suggests that activities dealing with the "executive action capability" were not intended to be committed to writing.

MEMORANDUM FOR: Chief, Accounts Branch, Finance Division

SUBJECT: Payments to QJWIN

1. QJWIN was recruited in Frankfurt 1 November 1960 to undertake a one-shot mission to the Belgian Congo. Because the mission potentially involved great personal risk to him and he was obliged to separate himself from his business affairs, it was agreed orally by this writer with QJWIN that his compensation would be at the rate of \$1,000.00 per month, plus his expenses, for a period of not less than one month and not more than two months.

2. Prior to departing for the Congo QJWIN was obliged to travel to several European countries in order to make cover arrangements. The entire period of his employment from the beginning of his mission until his return from the Congo covered the months of November and December, 1960. For this period he has been paid completely in various sums by [] and this writer who paid him \$160.00. Receipts exist for all payments of salary to QJWIN. []

CIA HISTORICAL REVIEW PROGRAM

13 March 1978

MEMORANDUM FOR: Chief, Security Analysis Group

FROM: [Security Analysis Group]

SUBJECT: HSCA Request for Review of Agency Information

1. Reference is made to the attached request from the House Select Committee on Assassinations (HSCA) dated 2 March 1978. Item 2 refers to one WIROGUE, a CIA agent involved in the ZRRIFLE Program.

2. WIROGUE has been identified as [] The only Office of Security record of [] is the attached polygraph report dated 18 May 1959. A review of this lengthy (18 pages) report reveals no information apparently relevant to the HSCA inquiry (assassination of President John F. Kennedy), although it is readily recognized that the HSCA has asked for access to all files and index references pertaining to WIROGUE.

3. The polygraph report was based on some 15 different polygraph tests of [] to determine the veracity of his statements about his rather complicated life history. At the time of his testing, [] was under consideration by SR Division for use in a sensitive position. A good deal of the report consists of a narrative of []

4. Our options, as with the QJWIN and Alvarado polygraphs reported to you earlier, appear to be three:

- a. deny the material,
- b. provide interested HSCA staffers with a verbal briefing of the contents of the report,
- c. make the report available to the HSCA for review.

question, once completeness of the file was verified, documents filed prior to 22 November 1963 would have had to be determined by manual review of documents in the DDP file, and in files of other Agency components, checking the date of origin and approximate time of filing. Presumably this is what was done, as such a list was prepared and submitted to the Warren Commission. Use of the 20 February 1964 note in Friday's hearings, in the manner Mr. Goldsmith did, suggests that some unfamiliarity with machine applications in indexing, and maintenance of files, has confused his investigators' understanding of the explanations given them.

The handwritten notes on the ZRRIFLE file present yet another interesting sample of analysis, understanding and inference. The ZRRIFLE file, and the QJWIN file, should speak for themselves. It was clear that Mr. Harvey (the officer in charge of the matter) and an associate, initially contemplated trying to establish false files. It is equally clear to anyone willing to pursue the question beyond its asking, that they did not do so. Why he did not cannot be recaptured factually today as Mr. Harvey is dead, but that he did not is clear. Perhaps he tried and simply could not. In any event, it was not necessary to do so anyway, if limited records were desired to enhance the security of the operation.

First, Mr. Harvey had authority to report expenditures by what is termed "certification." You have the documents that make this clear. It simply means that Mr. Harvey did not need vouchers or records to support his claim for reimbursement of expenditures. He need only certify that he spent the money. Further, your people (as well as you personally) have read the 1967 report by the Inspector General which makes it clear that the decision was taken to keep only limited records. What Mr. Harvey did was first reconstructed by the CIA Inspector General in 1967 by interviews, with Mr. Harvey speaking from cryptic notes. The Church Committee had similar access to Mr. Harvey in 1975.

The point is, that whatever early consideration may have been given to how to approach the problem, there were no fake files. The files were easily located in 1967 during the Inspector General's inquiry, and again for the Church Committee. Your people also have reviewed them. Mr. Goldsmith has focussed on early considerations about how to try to run the operation, omitting the fact that it was not done that way. Again, he

1. QJWIN HAS BEEN TERMINATED. [] TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, [] SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN [] HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN [] QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6, [] 1426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING [] DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH [] MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. [] HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. [] IS KNOWN TO QJWIN BY TRUE NAME. [] USED THE NAME [] WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED [] TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE [] OUTSIDE PHONE. [] PHONE IS BEING DISMANTELED IN [] OCTOBER OF THIS YEAR. QJWIN'S ADDRESSES ARE FORWARDED UNDER SEPARATE COVER.

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the [] Station or by the [] Station or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present Chief of Station [] and [] be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the [] and [] stations be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which [] is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and need no longer, except perhaps for minor accountings, be considered as a part of this project.

1. For the purpose of ZRRIFLE activities, you are hereby authorized to retain the services of principal agent QJWIN and such other principal agents and sub-agents as may be required. This authorization will continue to be in force through 31 December 1963 subject to renewal at that time.

13. (Confidential - LLM) LIAISON Called Representative Bob Carr (D., Mich.) in response to his earlier request and based upon the information provided by NE Division, I told Mr. Carr that the Agency had not developed abroad any information on the travel of Sami Eshmil and that we had gotten an alert from the FBI on Eshmil's earlier trip to Libya but not on his trip to Israel when he was arrested.

14. (Unclassified - MDC) LIAISON Received a call from Rita Argenta, of the House Armed Services Committee staff, who wanted to know what clearances Williston B. Cofer, of the Committee staff, holds. After checking with Compartmented Information Branch, I informed Rita of Cofer's clearances and amended our records to reflect same.

(Unclassified - RSG) LIAISON Called Dave Melocik, Congressional Relations, Drug Enforcement Administration, and suggested that he respond to the House Select Committee on Assassinations request for information on QJWIN independently. I also indicated to Melocik that we had a similar request from the Committee and would respond directly to them.

checking the date of origin and approximate time of filing. Presumably this is what was done, as such a list was prepared and submitted to the Warren Commission. The machine listing recording all documents as of the date of the print-out could not serve this purpose. Use of this in Friday's hearings in the manner Mr. Goldsmith did, suggests that unfamiliarity with machine applications in indexing has impaired your investigators' understanding of the explanations given them.

The handwritten notes on the ZRRIFLE file present yet another interesting sample of analysis, understanding and inference.

The ZRRIFLE file, and the QJWIN file, should speak for themselves. It was clear that Mr. Harvey (the officer in charge of the matter) and an associate, contemplated trying to establish false files. It is equally clear to anyone willing to pursue the question beyond its asking, that they did not do so. Why he did not cannot be recaptured today as Mr. Harvey is dead, but that he did not is clear. Perhaps he tried and simply could not. However, had your people pursued it the reason why he did not have to, even had he been able to, is apparent. The record is available on this had your investigators considered its meaning.

question, once completeness of the file was verified, documents filed prior to 22 November 1963 would have had to be determined by manual review of documents in the DDP file, and in files of other Agency components, checking the date of origin and approximate time of filing. Presumably this is what was done, as such a list was prepared and submitted to the Warren Commission. Use of the 20 February 1964 note in Friday's hearings, in the manner Mr. Goldsmith did, suggests that some unfamiliarity with machine applications in indexing, and maintenance of files, has confused his investigators' understanding of the explanations given them.

It was clear that Mr. Harvey (the officer in charge of the matter) and an associate, initially contemplated trying to establish false files. It is equally clear to anyone willing to pursue the question beyond its asking, that they did not do so. Why he did not cannot be recaptured factually today as Mr. Harvey is dead, but that he did not is clear. Perhaps he tried and simply could not. In any event, it was not necessary to do so anyway, if limited records were desired to enhance the security of the operation.

First, Mr. Harvey had authority to report expenditures by what is termed "certification." You have the documents that make this clear. It simply means that Mr. Harvey did not need vouchers or records to support his claim for reimbursement of expenditures. He need only certify that he spent the money. Further, your people (as well as you personally) have read the 1967 report by the Inspector General which makes it clear that the decision was taken to keep only limited records. What Mr. Harvey did was first reconstructed by the CIA Inspector General in 1967 by interviews, with Mr. Harvey speaking from cryptic notes. The Church Committee had similar access to Mr. Harvey in 1975.

The point is, that whatever early consideration may have been given to how to approach the problem, there were no fake files. The files were easily located in 1967 during the Inspector General's inquiry, and again for the Church Committee. Your people also have reviewed them. Mr. Goldsmith has focussed on early considerations about how to try to run the operation, omitting the fact that it was not done that way. Again, he

4. (S) Mr. Blakey observed that every organization has its formal, on-paper structure, but it also has a second, informal structure, which is the one that really determines how the organization works. He can understand CIA's formal organization, but the second one is more difficult for him to comprehend. Speaking of Bill Harvey, he asked whether I knew him. I said I did. This led to a discussion about how it could have happened that Harvey, as Chief, Division D, could have been engaged in operational activity which seemed to have nothing to do with Division D's responsibilities, as a service element of CIA. I said that when I came into the Agency in 1948, Harvey was already a very senior and respected officer: that in subsequent years he had a very close relationship with Mr. Helms, and if the latter had given Harvey some special assignment, Harvey could easily have carried it out in a compartmented way alongside his regular duties. I pointed out that since Division D itself was a compartmented activity, it would not surprise anyone if the Chief of the Division were handling personally an especially compartmented activity. Mr. Blakey wanted to know how Harvey could have gotten personnel and funds to carry out his assignment. I said he would probably borrow the personnel in the name of the Director, and he would get his funds in the regulation manner, probably from an account under the Director's control. But he might not need either: he might use people who would simply handle his needs in addition to their regular assignments.

5. (S) Mr. Blakey asked me if I knew who QJWIN was. I said I of course knew the crypt from its appearance in the Rockefeller Commission Report, and that "QJ" was a digraph for a [] Station source, agent or operation and I knew QJWIN was [] Mr. Blakey did not pursue the question.

6. (S) Mr. Blakey asked what kind of files Division D kept, and I said they were all devoted to the operational activities of the Division: that, except for our own personnel, there were no files on individuals. Mr. Cornwell asked if Harvey had had any personal files and I said that if he had, he had not left them behind in Division D, and I doubted very much if he had left any behind when he left the Agency. The HSCA staffers had no further questions.

It was clear that Mr. Harvey (the officer in charge of the matter) and an associate, initially contemplated trying to establish false files. It is equally clear to anyone willing to pursue the question beyond its asking, that they did not do so. Why he did not cannot be recaptured factually today as Mr. Harvey is dead, but that he did not is clear. Perhaps he tried and simply could not. In any event, it was not necessary to do so anyway, if limited records were desired to enhance the security of the operation.

First, Mr. Harvey had authority to report expenditures by what is termed "certification." You have the documents that make this clear. It simply means that Mr. Harvey did not need vouchers or records to support his claim for reimbursement of expenditures. He need only certify that he spent the money. Further, your people (as well as you personally) have read the 1967 report by the Inspector General which makes it clear that the decision was taken to keep only limited records. What Mr. Harvey did was first reconstructed by the CIA Inspector General in 1967 by interviews, with Mr. Harvey speaking from cryptic notes. The Church Committee had similar access to Mr. Harvey in 1975.

The point is, that whatever early consideration may have been given to how to approach the problem, there were no fake files. The files were easily located in 1967 during the Inspector General's inquiry, and again for the Church Committee. Your people also have reviewed them. Mr. Goldsmith has focussed on early considerations about how to try to run the operation, omitting the fact that it was not done that way. Again, he

(Unclassified - RSG) LIAISON Took a call from Dave Melocik, Congressional Relations, Drug Enforcement Administration, who indicated he had received a written request from the House Select Committee on Assassinations for any and all files on QJWIN. He called me to seek the true identity so that he might process this request. I indicated I would call him back later in the day with further thoughts on this matter.

19. (Unclassified - RSG) LIAISON Called Ken Klein, Senior Counsel, House Select Committee on Assassinations, to indicate that Office of Security files on Nosenko were ready for review. Klein indicated he would visit the Agency tomorrow to conduct this file review.

20. (Unclassified - RSG) LIAISON Betsy Wolf and Dan Hardway, House Select Committee on Assassinations staff, visited Headquarters to review Agency material.

21. (Confidential - LLM) LIAISON Spoke to Mike Smith, NSA, on the secure phone, concerning the House International Relations Subcommittee on International Organizations (Fraser Subcommittee) request for access to NSA material. I also sent him a copy of the Attorney General agreement with the Subcommittee.

(Confidential - LLM) LIAISON Called Paul Michel, Department of Justice, to be assured that any CIA originated information made available by Justice to the House International Relations Subcommittee on International Organizations (Fraser Subcommittee) is appropriately sanitized according to CIA's criteria and he assured me that this would be the case. I advised Mo Sovern, O/SA/DO/O.

23. (Secret - BAA) LIAISON Called Barbara Allen, in the office of Norvill Jones, Staff Director, Senate Foreign Relations Committee, and provided her with number of the Foreign Service List. She will pass this number on to Mr. Jones.

was engaged in daily meetings concerning them. He attended a station chiefs' conference in Panama in late January and early February.

February - March 1962

Harvey recalls a first meeting with Edwards in February 1962 on the subject of the Castro operation. He also recalls working out the details of the takeover during March.

(Comment: After Harvey took over the Castro operation he ran it as one aspect of ZRRIFLE; however, he personally handled the Castro operation and did not use any of the assets being developed in ZRRIFLE. He says that he soon came to think of the Castro operation and ZRRIFLE as being synonymous. The over-all Executive Action program came to be treated in his mind as being synonymous with QJWIN, the agent working on the over-all program. He says that when he wrote of ZRRIFLE/QJWIN the reference was to Executive Action Capability; when he used the cryptonym ZRRIFLE alone, he was referring to Castro. He said that his correspondence would disclose this distinction. We reviewed the correspondence and found it for the most part unrevealing.

(After Harvey left Task Force W and was winding up his headquarters responsibilities in preparation for [

I recall that, after the news of the assassination of President Kennedy reached the DGI, orders were issued for all offices of the DGI, at Headquarters and in the field, to sort and package all documents according to whether they were "muy secreto" (very secret), "secreto" (secret), or "importante" (important). The material, once packaged, was to be held pending further instructions. All travel by DGI officers and all DGI pouches were suspended temporarily. In addition, I recall that DGI Headquarters personnel were instructed either to remain in the DGI Headquarters offices or to keep the DGI aware of their whereabouts so that they could be reached immediately. I do not know the reason for these measures but I believe it logical that they were issued because of the possibility that the United State might take some type of action against Cuba and the DGI offices. As nearly as I can recall, we were able to unpack DGI files and use them normally about the 3rd of December 1963."

3. In brief, the Source does not claim to have any significant information concerning the assassination of President Kennedy or about the activities of OSWALD. If the paraphrased comments of the Source are considered to need further clarification, I suggest that Mr. Rocca, who is most familiar with the details of the OSWALD Case, talk to the Source. This can be arranged at any time. Meanwhile, I shall have a question asked in a forthcoming LCFLUTTER to determine whether or not the Source seems to have concealed any information on this matter.

QJWIN TERMINATION

ON REQUIRED-REFERENCE

OLLA-19257 14 FEBRUARY 1963

1. QJWIN HAS BEEN TERMINATED. TOLD HIM ON 21 APRIL THAT THE OPERATION IN WHICH HE WAS TO PLAY A ROLE HAD BEEN SHELVED AND THEREFORE HIS CONTRACT, WHICH RAN OUT ON 29 FEBRUARY, WAS NOT RENEWED. HE WAS REASSURED THAT THIS ACTION DID NOT RESULT FROM ANYTHING HE HAD DONE AND HIS PAST COOPERATION WAS APPRECIATED. IT WAS MENTIONED AS CONCEIVABLE THAT THE OPERATION MIGHT HAVE BEEN OFF AND RUNNING IF HE HAD BEEN ABLE TO ESTABLISH HIS COVER LAST YEAR. QJWIN ACCEPTED THE REASON FOR TERMINATION AND SAID HE WOULD ALWAYS BE AVAILABLE IF HE COULD BE OF ANY ASSISTANCE. IN DISCUSSING HIS FUTURE, SUGGESTED, NOW THAT HE HAS RECEIVED ALL THE NECESSARY AUTHORIZATIONS FOR DOING BUSINESS IN GERMANY, HE SERIOUSLY CONSIDER GOING AHEAD WITH THE VENTURE IN COLOGNE. QJWIN SAID HE WOULD DISCUSS THIS WITH HIS WIFE. HIS ONLY HESITATION IS IN COMMITTING HIMSELF TO A LONG LEASE ON A SHOP.

2. SINCE JANUARY 1962 (SEE PARAGRAPH 6) 426 OF 15 DECEMBER 1961) QJWIN'S ONLY ASSIGNMENT HAS BEEN TO ESTABLISH COVER. THIS REQUIREMENT WAS CONFIRMED BY DIR-12541 OF 28 MAY 1962 AND DURING DISCUSSIONS IN HEADQUARTERS IN JULY 1962. 27 MONTHS AND SOME \$18,000 LATER, HE IS STILL NOT IN PLACE, ALTHOUGH MADE AN ISSUE OF THIS WITH HIM IN AUGUST 1963. WHETHER HE EVER REALLY INTENDED TO COMMIT HIMSELF TO THIS ASSIGNMENT REMAINS A QUESTION. HAS STRONG DOUBTS. QJWIN'S PERSONAL HISTORY REFLECTS MAJOR INSTABILITY AND THE HABIT OF HEDGING HIS BETS IS UNDOUBTEDLY PART OF HIS CHARACTER. THIS DOES NOT IMPLY A SECURITY BREACH. THERE IS NOTHING TO INDICATE THAT HE HAS DISCUSSED HIS KUBARK RELATIONSHIP WITH ANYONE EXCEPT, PERHAPS, HIS WIFE.

3. IS KNOWN TO QJWIN BY TRUE NAME. USED THE NAME WITH HIM, BUT IT IS ASSUMED THAT HE HAS IDENTIFIED TRUE NAME. QJWIN KNOWS THE TELEPHONE NUMBER OF THE STATION OUTSIDE PHONE. PHONE IS BEING DISMANTELED IN OCTOBER OF THIS YEAR. ADDRESSED IN FORWARDED UNDER SEPARATE COVER.

27 JUN 1963

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: QJWIN

1. Confirming our conversation of 26 June 1963, I make the following recommendations concerning the further handling and possible disposition of QJWIN:

a. I believe the original purpose for which QJWIN was continued and sent to his present undercover assignment is no longer of sufficient validity to justify the continuation of QJWIN beyond the termination of his present contract for this purpose alone.

b. QJWIN, in my opinion, is a competent, usable agent who is capable of operating in certain circles in Europe where we have very few assets. Whether this is of sufficient worth to continue his services depends on the determination of how he can be used either by the [redacted] or by the [redacted] or by any other KUBARK informant as a long term unofficial cover agent. He is not being used at the present time. He is being paid but he is on ice as far as any operational assignments are concerned.

c. It is recommended that the present [redacted] and [redacted] be consulted by Headquarters for their best recommendations as to the continued use of QJWIN. After these recommendations are received, I suggest that the [redacted] be consulted for their possible interest in using him. If after these discussions a sensible framework for the operational use of QJWIN can be established, I would recommend we continue him. If not, I would recommend that he be terminated at the time his present contract expires.

2. As far as the ZRRIFLE aspects of this operation which have been covered under the QJWIN authorization for security reasons and with which [redacted] is fully familiar as I orally advised you on 26 June 1963, except for one precautionary "life line", aspects of this case have been terminated and [redacted] except perhaps for minor accountings, be considered as a part of this project.

1. For the purpose of ZRRIFLE activities, you are hereby authorized to retain the services of Principal Agent QJWIN and such other principal agents and sub-agents as may be required. This authorization will continue to be in force through 31 December 1962, subject to renewal at that time.

2. As established by contract with him, QJWIN's salary will be \$7,200 per annum. Accounting for the expenses of QJWIN and other agents involved in this activity will be in the form of receipts for funds received by them, and these receipts will be retained in the ZRRIFLE covert operational file. Because of the sensitive nature of this activity, accounting for funds will be by general category and by your certification. In addition to the salary established for QJWIN, you are authorized the expenditure of \$7,500 through 31 December 1962. If further funds are necessary, they will be provided.

It is possible to draw some speculative comparisons between Harvey's blue-print for assassination and the killing of John Kennedy but the Committee has no indication that the similarities are anything more than coincidence.

Seth Kantor has alleged that the main CIA agent in project ZRRIFLE, a man known as QJWIN, 26/ bailed Thomas Eli Davis, a friend of Jack Ruby's, 28/ out of a Moroccan jail. 28/ In December 1963 Thomas Eli Davis

was being held by the Moroccan National Security Police because of a letter in his handwriting which referred in passing to 'Oswald' and to Kennedy assassination. 28/

The Committee has not investigated Mr. Kantor's allegation that QJWIN bailed Mr. Davis out of the Moroccan jail, Mr. Davis' relationship with Ruby, or Mr. Davis' possible involvement in the assassination.

Even though Mr. Harvey personally had a motive, 30/ and had access to the means and the opportunity, 31/ to kill Kennedy, the above discussion represents the sum of the investigation conducted by this Committee into any possible connections between ZRRIFLE and the assassination.

It is possible to draw some speculative comparisons between Harvey's blue-print for assassination and the killing of John Kennedy but the Committee has no indication that the similarities are anything more than coincidence.

Seth Kantor has alleged that the main CIA agent in project ZRRIFLE, a man known as QJWIN, 26/ bailed Thomas Eli Davis, a friend of Jack Ruby's, 27/ out of a Moroccan jail. 28/ In December 1963 Thomas Eli Davis

was being held by the Moroccan National Security Police because of a letter in his handwriting which referred in passing to 'Oswald' and to Kennedy assassination. 29/

The Committee has not investigated Mr. Kantor's allegation that QJWIN bailed Mr. Davis out of the Moroccan jail, Mr. Davis' relationship with Ruby, or Mr. Davis' possible involvement in the assassination.

Even though Mr. Harvey personally had a motive, 30/ and had access to the means and the opportunity, 31/ to kill Kennedy, the above discussion represents the sum of the investigation conducted by this Committee into any possible connections between ZRRIFLE and the assassination.
